INDEX

Volume 165, January–February 1969

Ablation, cortex, visual, and enucleation, acetylcholine in rabbit visual system nuclei after, 117

Acetylcholine, in rabbit visual system nuclei after enucleation and visual cortex ablation, 117

ACTH release, effects of psychotropic drugs on, 108

Adrenergic antagonists, *beta*, effect on cardiac contractions, myofibrillar ATPase activity, high-energy phosphate stores and lipid-facilitated transport of calcium ions, 225

Adrenergic receptors, *alpha* and *beta*, interaction of quinidine with, in rat myocardium, 242

Amine(s)
- biogenic, activities of enzymes involved in formation and destruction in various areas of human brain, 196
- -induced cardiac phosphorylase activation, effect of theophylline on cardiac contractility and, 234

Amino acid decarboxylase, aromatic, activities of enzymes involved in formation and destruction of, in various areas of human brain, 196

Aminoguanidine, specific and sensitive assay for, its application to a study of the disposition of, in animal tissues, 14

D-Amphetamine, behavioral effects of, 216

H^3-D-Amphetamine, behavioral effects of, 216

Anesthesia, barbiturate, an abnormal physiologic situation, 126

Angiotensin, and norepinephrine, direct effect on pulmonary veins of intact dogs, 87

Anorectic agent, fenfluramine, studies on the site of action of, 60

Antagonists, *beta* adrenergic, effect on cardiac contractions, myofibrillar ATPase activity, high-energy phosphate stores and lipid-facilitated transport of calcium ions, 225

Antiestrogenic properties, of some basic ether derivatives of dimethylstilbestrol and related compounds, 52

Antifertility properties, of some basic ether derivatives of dimethylstilbestrol and related compounds, 52

Antiinflammatory drugs, action on lysozyme activity and "turbidity" of serum from rats with adjuvant arthritis or endocrine deficiency, 294

Arthritis, adjuvant action of antiinflammatory drugs on lysozyme activity and "turbidity" of serum from rats with endocrine deficiency or, 294

ATPase activity, myofibrillar, effect of *beta* adrenergic antagonists on cardiac contractions, high-energy phosphate stores, lipid-facilitated transport of calcium ions and, 225

Aviado, D. M., Kishimoto, T. and Kneidinger, H. J., 274

Axelrod, J., *see* Landsberg, L., 102

Barbiturate, interaction and inhibition, of NADH-cytochrome *c* oxidoreductase in respiring systems, some features of, 23

Barbiturate anesthesia, an abnormal physiologic situation, 126

Baum, T., 176

Beaven, M. A., Gordon, J. W., Jacobsen, S. and Severs, W. B., 14

Berger, J. E. and Mokler, C. M., 242

Bhattacharya, A. N. and Marks, B. H., 108

Biogenic amines, activities of enzymes involved in formation and destruction in various areas of human brain, 196

Biosynthesis, increased, of cardiac norepinephrine after hypophysectomy, 102

Blehm, D. J., *see* Needleman, P., 286

Blood flow, coronary, in the dog, effects of synthetic oxytocin with and without preservatives upon, 258

Bogdanski, D. F. and Brodie, B. B., 181

Brain
- enzymatic conversion of norepinephrine to epinephrine by, 190
- human, activities of enzymes involved in formation and destruction of biogenic amines in various areas of, 196
- levels of drugs, correlation with behavioral effects, 216
- metabolism of some phenylethylamines and their β-hydroxylated analogs in, 9
- rat, homogenates, regional differences in H^3-norepinephrine and H^3-dopamine uptake into, 78

Breese, G. R., Chase, T. N. and Kopin, I. J., 9

Brink, A. J., Kotzé, J. C. N., Muller, S. P. and Lochner, A., 251

Brodie, B. B., *see* Bogdanski, D. F., 181

Brody, T. M., *see* McNeill, J. H., 97, 234

Bronchopulmonary effects, of pentaerythrityl tetranitrate and isoproterenol, 274

Brown, R. D., Daigneault, E. A. and Pruett, J. R., 300

Calcium, effect on inhibition of norepinephrine output from cat spleen by guanethidine of cocaine, phenoxybenzamine and, 166

Calcium ions, lipid-facilitated transport of, effect of *beta* adrenergic antagonists on cardiac contractions, myofibrillar ATPase activity, high-energy phosphate stores and, 225
Carbachol, and decamethonium, uptake of, by slices of rat cerebral cortex, mode of action of morphine on, 310
Cardiac contractility, and amine-induced cardiac phosphorylase activation, effect of theophylline on, 234
Cardiac contractions, effect of *beta* adrenergic antagonists on myofibrillar ATPase activity, high-energy phosphate stores, lipid-facilitated transport of calcium ions and, 225
Cardiac norepinephrine, increased biosynthesis after hypophysectomy, 102
Cardiac phosphorylase activation
amine-induced, and cardiac contractility, effect of theophylline on, 234
rat, effect of *d*- and *l*-norepinephrine on, 97
Cardiac tissue, in experimental hypertension, sympathetic responses in, 176
Cardiovascular dynamics, effects of barbiturates, 126
Carson, V., *see* Nayler, W. G., 225
Catecholamine(s)
content in hypothalamic nerve cells during estrous cycle of rat, cyclic variations of, with a concomitant study of substantia nigra, 204
inability to produce supersensitivity in intestinal smooth muscle to, 71
regional differences in uptake into rat brain homogenates, 78
Catechol-O-methyltransferase, activities of enzymes involved in formation and destruction of, in various areas of human brain, 196
Century, B., *see* Vogel, W. H., 196
Cerebral cortex, rat, slices of, mode of action of morphine on uptake of carbachol and decamethonium by, 310
Chase, T. N., *see* Breese, G. R., 9
Chlorpromazine-induced changes, in hypothalamo-hypophyseal-adrenal system in rats in presence and absence of hypothermia, 108
Cholinergic drugs, selected, and strychnine, effects on cochlear responses and olivo-cochlear inhibition, 300
Cocaine
effect on inhibition of norepinephrine output from cat spleen by guanethidine of phenoxybenzamine, calcium and, 166
inability to produce supersensitivity to catecholamines in intestinal smooth muscle, 71
Cochlear responses, and olivo-cochlear inhibition, effects of selected cholinergic drugs and strychnine on, 300
Collins, D. J., *see* Emmens, C. W., 52
Colombo, C., *see* Piliero, S. J., 294
Contractility
and metabolism, of isolated rat heart, effect of emetine on, 251
cardiac, and amine-induced cardiac phosphorylase activation, effect of theophylline on, 234
Contractions, cardiac, effect of *beta* adrenergic antagonists on myofibrillar ATPase activity, high-energy phosphate stores, lipid-facilitated transport of calcium ions and, 225
Coronary blood flow, in the dog, effects of synthetic oxytocin with and without preservatives upon, 258
Cortex
ablation, visual, and enucleation, acetylcholine in rabbit visual system nuclei after, 117
cerebral, rat, slices of, mode of action of morphine on uptake of carbachol and decamethonium by, 310
Corticotropin release, effects of psychotropic drugs on, 108
Cox, R. H., Jr., *see* Maickel, R. P., 216
Coyle, J. T., *see* Snyder, S. H., 78
Creese, R., *see* Taylor, D. B., 310

Daigneault, E. A., *see* Brown, R. D., 300
Decamethonium, and carbachol, uptake of, by slices of rat cerebral cortex, mode of action of morphine on, 310
de Champlain, J., *see* Landsberg, L., 102
Denitration, glutathione-dependent, and vasodilator effectiveness of organic nitrates, relationship between, 286
Desipramine, inability to produce supersensitivity to catecholamines in intestinal smooth muscle, 71
H^3-Digoxin, alteration of body distribution by acute hyperkalemia in the dog, 136
Dimethylstilbestrol, and related compounds, antiestrogenic and antifertility properties of some basic ether derivatives of, 52
Dixon, W., *see* Kirpekar, S. M., 166
Dopamine-β-hydroxylase, activities of enzymes involved in formation and destruction of, in various areas of human brain, 196
H^3-Dopamine, and H^3-norepinephrine, uptake into rat brain homogenates, regional differences in, 78
Drugs
antiinflammatory, action on lysozyme activity and "turbidity" of serum from rats with adjuvant arthritis or endocrine deficiency, 294
brain levels of, correlation with behavioral effects, 216
cholinergic, selected, and strychnine, effects on cochlear responses and olivo-cochlear inhibition, 300

Emetine, effect on metabolism and contractility of isolated rat heart, 251
Emmens, C. W., Collins, D. J., Hobbs, J. J., Miller, B. G. and Owen, W. H., 52
Endocrine deficiency, action of antiinflammatory drugs on lysozyme activity and "turbidity" of serum from rats with adjuvant arthritis or, 294
Enucleation, and visual cortex ablation, acetylcholine in rabbit visual system nuclei after, 117
Enzyme(s)
activities of, involved in formation and destruction of biogenic amines in various areas of human brain, 196
NADH-cytochrome *c* oxidoreductase and barbiturate interaction and inhibition in respiring systems, 23
Epinephrine
and norepinephrine, disposition of, in vascular tissue, determined by the technique of oil immersion, 152
enzymatic conversion by the brain of norepinephrine to, 190
Erythrocytes, human, methylene blue uptake and reversal of chemically induced methemoglobinemias in, 36
Estrous cycle, of rat, cyclic variations of catecholamine content in hypothalamic nerve cells during, with a concomitant study of substantia nigra, 204
Ether derivatives, some basic, of dimethylstilbestrol and related compounds, antiestrogenic and antifertility properties of, 52

Fenfluramine, a new anorectic agent, studies on the site of action of, 60
Fortner, C. L., Manley, E. S., Jr. and Woodbury, R. A., 258
Foxwell, M. H., Funderburk, W. H. and Ward, J. W., 60
Fujimoto, J. M. and Haarstad, V. B., 45
Funderburk, W. H., *see* Foxwell, M. H., 60

Glutathione-dependent denitration, and vasodilator effectiveness of organic nitrates, relationship between, 286
Goldsmith, C., *see* Marcus, F. I., 136
Gordon, J. W., *see* Beaven, M. A., 14
Govier, W. C., Sugrue, M. F. and Shore, P. A., 71
Guanethidine, effect of cocaine, phenoxybenzamine and calcium on inhibition of norepinephrine output from cat spleen by, 166

Haarstad, V. B., *see* Fujimoto, J. M., 45
Heart
isolated rat, effect of emetine on metabolism and contractility of, 251
slices, rat, effects of inorganic ions on storage and uptake of H^3-norepinephrine by, 181
Heller, A., *see* Miller, E., 117
Hobbs, J. J., *see* Emmens, C. W., 52
Homogenates
placental, human and rodent, studies on the reduction of aromatic nitro groups in, 1
rat brain, regional differences in H^3-norepinephrine and H^3-dopamine uptake into, 78
Hydroxylamine, and nitrite, comparison of lethal effects of, in the mouse, 30
β-Hydroxylated analogs, phenylethylamines and, metabolism of, in brain, 9
Hyman, A. L., 87, 267
Hyperkalemia, acute, in the dog, alteration of body distribution of H^3-digoxin by, 136
Hypertension, experimental, sympathetic responses in cardiac tissue in, 176
Hypophysectomy, increased biosynthesis of cardiac norepinephrine after, 102
Hypothalamic nerve cells, cyclic variations of catecholamine content in, during estrous cycle of rat, with a concomitant study of substantia nigra, 204
Hypothalamo-hypophyseal-adrenal system, in rats, reserpine- and chlorpromazine-induced changes in presence and absence of hypothermia, 108
Hypothermia, presence and absence of, reserpine- and chlorpromazine-induced changes in hypothalamo-hypophyseal-adrenal system in rats in, 108

Inorganic ions, effects on storage and uptake of H^3-norepinephrine by rat heart slices, 181
Intestinal smooth muscle, inability to produce supersensitivity to catecholamines in, 71
Ions
calcium, lipid-facilitated transport of, effect of *beta* adrenergic antagonists on cardiac contractions, myofibrillar ATPase activity, high-energy phosphate stores and, 225
inorganic, effects on storage and uptake of H^3-norepinephrine by rat heart slices, 181
Isoproterenol
and pentaerythrityl tetranitrate, bronchopulmonary effects of, 274
interaction of, with quinidine in rat myocardium, 242

Jacobsen, S., *see* Beaven, M. A., 14
Juchau, M. R., 1

Kalsner, S. and Nickerson, M., 152
Kapadia, G. G., *see* Marcus, F. I., 136
Karten, H., *see* Pohorecky, L. A., 190
Kirpekar, S. M., Wakade, A. R., Dixon, W. and Prat, J. C., 166

Kishimoto, T., *see* Aviado, D. M., 274
Kneidinger, H. J., *see* Aviado, D. M., 274
Kopin, I. J., *see* Breese, G. R., 9
Kotzé, J. C. N., *see* Brink, A. J., 251

Landsberg, L., de Champlain, J. and Axelrod, J., 102
Layne, W. R.
and Smith, R. P., 36
see Smith, R. P., 30
Lichtensteiger, W., 204
Lipid-facilitated transport, of calcium ions, effect of *beta* adrenergic antagonists on cardiac contractions, myofibrillar ATPase activity, high-energy phosphate stores and, 225
Lochner, A., *see* Brink, A. J., 251
Lowe, T. E., *see* Nayler, W. G., 225
Lu, T.-C., *see* Taylor, D. B., 310
Lysozyme activity, and "turbidity" of serum, from rats with adjuvant arthritis or endocrine deficiency, action of antiinflammatory drugs on, 294

Mack, V., *see* Nayler, W. G., 225
Madras, B. K., *see* Sourkes, T. L., 289
Maickel, R. P., Cox, R. H., Jr., Miller, F. P., Segal, D. S. and Russell, R. W., 216
Manley, E. S., Jr., *see* Fortner, C. L., 258
Marcus, F. I., Kapadia, G. G. and Goldsmith, C., 136
Marks, B. H., *see* Bhattacharya, A. N., 108
McInnes, I., *see* Nayler, W. G., 225
McNeill, J. H.
and Brody, T. M., 97
Nassar, M. and Brody, T. M., 234
Metabolism
and contractility, of isolated rat heart, effect of emetine on, 251
drug, in placenta, 1
of some phenylethylamines and their β-hydroxylated analogs in brain, 9
tryptophan, effect of yohimbine on, 289
Methemoglobinemias, chemically induced, reversal of, and methylene blue uptake, in human erythrocytes, 36
Methylene blue, uptake, and reversal of chemically induced methemoglobinemias in human erythrocytes, 36
Miller, B. G., *see* Emmens, C. W., 52
Miller, E., Heller, A. and Moore, R. Y., 117
Miller, F. P., *see* Maickel, R. P., 216
Missala, K., *see* Sourkes, T. L., 289
Mokler, C. M., *see* Berger, J. E., 242
Monoamine oxidase, activities of enzymes involved in formation and destruction of, in various areas of human brain, 196
Moore, R. Y., *see* Miller, E., 117
Morphine
ethereal sulfate, isolation of, from urine of chicken and cat, 45
mode of action of, on uptake of carbachol and decamethonium by slices of rat cerebral cortex, 310
Muller, S. P., *see* Brink, A. J., 251
Muscle, smooth, intestinal, inability to produce supersensitivity to catecholamines in, 71
Myocardium, rat, interaction of quinidine with *alpha* and *beta* adrenergic receptors in, 242
Myofibrillar ATPase activity, effect of *beta* adrenergic antagonists on cardiac contractions, high-energy phosphate stores, lipid-facilitated, transport of calcium ions and, 225

NADH-cytochrome *c* oxidoreductase, in respiring systems, some features of barbiturate interaction and inhibition of, 23
Nassar, M., *see* McNeill, J. H., 234
Nayler, W. G., Stone, J., Carson, V., McInnes, I., Mack, V. and Lowe, T. E., 225
Needleman, P., Blehm, D. J. and Rotskoff, K. S., 286
Nerve cells, hypothalamic, cyclic variations of catecholamine content in, during estrous cycle of rat, with a concomitant study of substantia nigra, 204
Neurons, catecholamine, content in hypothalamic nerve cells during estrous cycle of rat, cyclic variations of, with a concomitant study of substantia nigra, 204
Nickerson, M., *see* Kalsner, S., 152
Nitrates, organic, vasodilator effectiveness of, and glutathione-dependent denitration, relationship between, 286
Nitrite, and hydroxylamine, comparison of lethal effects of, in the mouse, 30
Nitro groups, aromatic, studies on the reduction of, in human and rodent placental homogenates, 1
Norepinephrine
and angiotensin, direct effect on pulmonary veins of intact dogs, 87
and epinephrine, disposition of, in vascular tissue, determined by the technique of oil immersion, 152
cardiac, increased biosynthesis after hypophysectomy, 102
d- and *l*-, effect on rat cardiac phosphorylase activation, 97
enzymatic conversion to epinephrine by the brain, 190
inability to produce supersensitivity in intestinal smooth muscle to, 71
inhibition of output from cat spleen by guanethidine, effect of cocaine, phenoxybenzamine and calcium on, 166

interaction of, with quinidine in rat myocardium, 242
H^3-Norepinephrine
and H^3-dopamine, uptake into rat brain homogenates, regional differences in, 78
storage and uptake by rat heart slices, effects of inorganic ions on, 181
Nuclei, rabbit visual system, acetylcholine in, after enucleation and visual cortex ablation, 117

Obituary, of Dr. Julius B. Kahn, Jr., 1921–1968, 150
Oil-immersion technique, disposition of norepinephrine and epinephrine in vascular tissue determined by, 152
Olivo-cochlear inhibition, and cochlear responses, effects of selected cholinergic drugs and strychnine on, 300
Orfei, V., *see* Vogel, W. H., 196
Owen, W. H., *see* Emmens, C. W., 52
Oxytocin, synthetic, effects with and without preservatives upon coronary blood flow in the dog, 258

Pentaerythrityl tetranitrate, and isoproterenol, bronchopulmonary effects of, 274
Pentobarbital-2-C^{14}, behavioral effects of, 216
Phenoxybenzamine
effect on inhibition of norepinephrine output from cat spleen by guanethidine of cocaine, calcium and, 166
interaction of, with quinidine in rat myocardium, 242
Phentolamine, interaction of, with quinidine in rat myocardium, 242
Phenylethanolamine - N - methyl transferase (PNMT), conversion of norepinephrine to epinephrine by the brain, 190
Phenylethylamines, and their β-hydroxylated analogs, metabolism of, in brain, 9
Phosphate stores, high-energy, effect of *beta* adrenergic antagonists on cardiac contractions, myofibrillar ATPase activity, lipid-facilitated transport of calcium ions and, 225
Phosphorylase activation, cardiac
amine-induced, and cardiac contractility, effect of theophylline on, 234
rat, effect of *d*- and *l*-norepinephrine on, 97
Piliero, S. J. and Colombo, C., 294
Placenta, homogenates, human and rodent, studies on the reduction of aromatic nitro groups in, 1
PNMT (phenylethanolamine-N-methyl transferase), conversion of norepinephrine to epinephrine by the brain, 190
Pohorecky, L. A., Zigmond, M., Karten, H. and Wurtman, R. J., 190
Prat, J. C., *see* Kirpekar, S. M., 166
Priano, L. L., Traber, D. L. and Wilson, R. D., 126
Propranolol, interaction of, with quinidine in rat myocardium, 242
Prostaglandins $F_{2\alpha}$ and E_1, active responses of pulmonary veins in intact dogs to, 267
Pruett, J. R., *see* Brown, R. D., 300
Psychotropic drugs, effects on corticotropin (ACTH) release, 108
Pulmonary veins, intact dogs
active responses to prostaglandins $F_{2\alpha}$ and E_1, 267
direct effect of norepinephrine and angiotensin on, 87

Quinidine, interaction with *alpha* and *beta* adrenergic receptors in rat myocardium, 242

Receptors, *alpha* and *beta* adrenergic, interaction of quinidine with, in rat myocardium, 242
Reserpine-induced changes, in hypothalamo-hypophyseal-adrenal system in rats in presence and absence of hypothermia, 108
Reversal, of chemically induced methemoglobinemias, and methylene blue uptake, in human erythrocytes, 36
Rotskoff, K. S., *see* Needleman, P., 286
Russell, R. W., *see* Maickel, R. P., 216

Segal, D. S., *see* Maickel, R. P., 216
Serum, "turbidity" of, from rats with adjuvant arthritis or endocrine deficiency, action of antiinflammatory drugs on lysozyme activity and, 294
Severs, W. B., *see* Beaven, M. A., 14
Shore, P. A., *see* Govier, W. C., 71

CONTENTS OF VOLUME 165

No. 1, January 1969

Studies on the Reduction of Aromatic Nitro Groups in Human and Rodent Placental Homogenates. Mont R. Juchau 1

Metabolism of Some Phenylethylamines and Their β-Hydroxylated Analogs in Brain. George R. Breese, Thomas N. Chase and Irwin J. Kopin 9

A Specific and Sensitive Assay for Aminoguanidine: Its Application to a Study of the Disposition of Aminoguanidine in Animal Tissues. M. A. Beaven, J. W. Gordon, S. Jacobsen and W. B. Severs 14

Some Features of Barbiturate Interaction and Inhibition of NADH-Cytochrome *C* Oxidoreductase in Respiring Systems. Herbert E. Spiegel and W. W. Wainio. 23

A Comparison of the Lethal Effects of Nitrite and Hydroxylamine in the Mouse. Roger P. Smith and W. Robert Layne 30

Methylene Blue Uptake and the Reversal of Chemically Induced Methemoglobinemias in Human Erythrocytes. W. Robert Layne and Roger P. Smith 36

The Isolation of Morphine Ethereal Sulfate from Urine of the Chicken and Cat. James M. Fujimoto and Vernon B. Haarstad 45

Antiestrogenic and Antifertility Properties of Some Basic Ether Derivatives of Dimethylstilbestrol and Related Compounds. C. W. Emmens, D. J. Collins, J. J. Hobbs, B. G. Miller and W. H. Owen 52

Studies on the Site of Action of a New Anorectic Agent, Fenfluramine. Marianne H. Foxwell, William H. Funderburk and John W. Ward 60

On the Inability to Produce Supersensitivity to Catecholamines in Intestinal Smooth Muscle. W. C. Govier, M. F. Sugrue and P. A. Shore 71

Regional Differences in H^3-Norepinephrine and H^3-Dopamine Uptake into Rat Brain Homogenates. Solomon H. Snyder and Joseph T. Coyle 78

The Direct Effect of Norepinephrine and of Angiotensin on the Pulmonary Veins of Intact Dogs. Albert Hyman 87

The Effect of *d*- and *l*-Norepinephrine on Rat Cardiac Phosphorylase Activation. John H. McNeill and Theodore M. Brody 97

Increased Biosynthesis of Cardiac Norepinephrine after Hypophysectomy. Lewis Landsberg, Jacques de Champlain and Julius Axelrod 102

Reserpine- and Chlorpromazine-Induced Changes in Hypothalamo-Hypophyseal-Adrenal System in Rats in the Presence and Absence of Hypothermia. Amar Nath Bhattacharya and Bernard H. Marks 108

Acetylcholine in Rabbit Visual System Nuclei after Enucleation and Visual Cortex Ablation. Eugene Miller, Alfred Heller and Robert Y. Moore 117

Barbiturate Anesthesia: An Abnormal Physiologic Situation. L. L. Priano, D. L. Traber and R. D. Wilson 126

Alteration of the Body Distribution of Tritiated Digoxin by Acute Hyperkalemia in the Dog. Frank I. Marcus, Geeta G. Kapadia and Carl Goldsmith 136

No. 2, February 1969

Dr. Julius B. Kahn, Jr. 1921–1968 150

Disposition of Norepinephrine and Epinephrine in Vascular Tissue, Determined by the Technique of Oil Immersion. Stanley Kalsner and Mark Nickerson 152

Effect of Cocaine, Phenoxybenzamine and Calcium on the Inhibition of Norepinephrine Output from the Cat Spleen by Guanethidine. S. M. Kirpekar, A. R. Wakade, W. Dixon and J. C. Prat 166

Sympathetic Responses in Cardiac Tissue in Experimental Hypertension. Thomas Baum 176

The Effects of Inorganic Ions on the Storage and Uptake of H^3-Norepinephrine by Rat Heart Slices. Donald F. Bogdanski and Bernard B. Brodie 181

Enzymatic Conversion of Norepinephrine to Epinephrine by the Brain. Larissa A. Pohorecky, Michael Zigmond, Harvey Karten and Richard J. Wurtman 190

Activities of Enzymes Involved in the Formation and Destruction of Biogenic Amines in Various Areas of Human Brain. W. H. Vogel, V. Orfei and B. Century... 196
Cyclic Variations of Catecholamine Content in Hypothalamic Nerve Cells during the Estrous Cycle of the Rat, with a Concomitant Study of the Substantia Nigra. Walter Lichtensteiger... 204
Correlation of Brain Levels of Drugs with Behavioral Effects. R. P. Maickel, R. H. Cox, Jr., F. P. Miller, D. S. Segal and R. W. Russell... 216
The Effect of *Beta* Adrenergic Antagonists on Cardiac Contractions, Myofibrillar ATPase Activity, High-Energy Phosphate Stores and Lipid-Facilitated Transport of Calcium Ions. Winifred G. Nayler, J. Stone, Valerie Carson, I. McInnes, Valerie Mack and T. E. Lowe... 225
The Effect of Theophylline on Amine-Induced Cardiac Phosphorylase Activation and Cardiac Contractility. John H. McNeill, Michael Nassar and Theodore M. Brody... 234
The Interaction of Quinidine with *Alpha* and *Beta* Adrenergic Receptors in the Rat Myocardium. James E. Berger and Corwin M. Mokler... 242
The Effect of Emetine on Metabolism and Contractility of the Isolated Rat Heart. Andries J. Brink, Jan C. N. Kotzé, Samuel P. Muller and Amanda Lochner. 251
Effects of Synthetic Oxytocin with and without Preservatives upon Coronary Blood Flow in the Dog. Clarence L. Fortner, Emmett S. Manley, Jr. and Robert A. Woodbury... 258
The Active Responses of Pulmonary Veins in Intact Dogs to Prostaglandins F_2 *Alpha* and E_1. Albert L. Hyman... 267
Bronchopulmonary Effects of Pentaerythrityl Tetranitrate and Isoproterenol. Domingo M. Aviado, Taketoshi Kishimoto and Henry J. Kneidinger... 274
Relationship between Glutathione-Dependent Denitration and the Vasodilator Effectiveness of Organic Nitrates. P. Needleman, D. J. Blehm and K. S. Rotskoff... 286
Effect of Yohimbine on Tryptophan Metabolism. T. L. Sourkes, Krystyna Missala and Bertha K. Madras... 289
Action of Antiinflammatory Drugs on the Lysozyme Activity and "Turbidity" of Serum from Rats with Adjuvant Arthritis or Endocrine Deficiency. Sam J. Piliero and Carmelo Colombo... 294
The Effects of Selected Cholinergic Drugs and Strychnine on Cochlear Responses and Olivo-Cochlear Inhibition. R. D. Brown, E. A. Daigneault and J. R. Pruett. 300
The Mode of Action of Morphine on the Uptake of Carbachol and Decamethonium by Slices of Rat Cerebral Cortex. Dermot B. Taylor, Richard Creese and Tzu-Chiau Lu... 310

INDEX

Volume 166, March–April 1969

Acetylcholine
  and facilitatory drug actions, subacute denervation as a means of disclosing mammalian motor nerve terminals as critical sites of, 217
  conformationally rigid analogs of, cholinergic effects and rates of hydrolysis of, 243
  evaluation of cholinergic antagonists, 237
Adenyl cyclase system, norepinephrine- and sodium fluoride-sensitive, similarities and differences in, 330
Adrenergic blockade, *alpha*, nonequilibrium, and neuroleptic activity of N-ethoxycarbonyl-1,2-dihydroquinoline (BC-347), 44
Adrenergic drugs, steric aspects of, some peripheral effects of (±)-*erythro*- and (±)-*threo*-methylphenidate, 308
Adrenergic innervation of cat's nictitating membrane as a factor influencing sensitivity of isolated preparation to *l*-norepinephrine, density of, 14
Adrenergic nerve endings, ultrastructural cytochemistry and pharmacology of 5-hydroxytryptamine in, 264
Adrenergic receptor(s)
  controlling melanophore responses of lizard (*Anolis carolinensis*), *in vitro* demonstration of, 1
  of bovine iris sphincter, 299
Agonist(s)
  cholinergic, muscarinic and nicotinic, comparison of effects on self-stimulation behavior of, 189
  moiety, pharmacologic evaluation of a new series of cholinergic antagonists containing an, 237
Albumin, serum, determination of binding constants for penicillin, 113
Alpha adrenergic blockade, nonequilibrium, and neuroleptic activity of N-ethoxycarbonyl-1,2-dihydroquinoline (BC-347), 44
Alpha receptor, sympathetic, evidence for blocking action of *beta* receptor blocking agents, 35
Amine(s)
  biogenic, and their precursors in newborn and adult dogs, comparison of cardiovascular effects of, 293
  cerebral, and acute hyperbaric oxygen toxicity, 346
Anolis carolinensis, lizard, *in vitro* demonstration of adrenergic receptors controlling melanophore responses of, 1
Antagonists, cholinergic, containing an agonist moiety, pharmacologic evaluation of a new series of, 237
Antidepressant(s)
  sensitivity and specificity of positive reinforcing areas to neurosedatives, stimulants and, 163
  tricyclic, and structurally related compounds as inhibitors of uptake of tritiated norepinephrine by rabbit aortic strips, molecular features affecting potency of, 320
Antidiuresis, dehydration-induced, in rats, chlorpromazine inhibition of, 63
Anton, A. H. and Sayre, D. F., 285
Aortic strips rabbit, molecular features affecting, potency of tricyclic antidepressants and structurally related compounds as inhibitors of uptake of tritiated norepinephrine by, 320
Armstrong, P. D., *see* Chiou, C. Y., 243
Atria, rabbit, quiescent, effect of temperature and calcium concentration on action of ouabain in, 354
Autonomic nerves, of rat vas deferens, localization of exogenous 5-hydroxytryptamine in, ultrastructural cytochemistry and pharmacology of, 264
Axelrod, J., *see* de Champlain, J., 339
2-Aziridinyl ethanol, pharmacology of, 205

BC-347, N-ethoxycarbonyl-1,2-dihydroquinoline, nonequilibrium *alpha* adrenergic blockade and neuroleptic activity of, 44
BCNU, 1,3-bis(2-chloroethyl)-1-nitrosourea, hepatotoxicity in rats, 104
Behavior
  maintained by a multiple schedule of reinforcement, effects of chlorpromazine on, 179
  self-stimulation, comparison of effects of muscarinic and nicotinic cholinergic agonists on, 189
Benz, F. W. and Long, J. P., 225
Besch, H. R., Jr., Marks, B. H. and Dutta, S., 77
Beta receptor blocking agents, evidence for sympathetic *alpha* receptor blocking action of, 35
Biogenic amines, and their precursors in newborn and adult dogs, comparison of cardiovascular effects of, 293
Biorhythms, pineal gland, alterations by N-methyl-3-piperidyl benzilate (JB336), 119
1,3-Bis(2-chloroethyl)-1-nitrosourea, BCNU, hepatotoxicity in rats, 104
Blenkarn, G. D., Schanberg, S. M. and Saltzman, H. A., 346

Blood pressure, neurogenic basis for rise in, evoked by nicotine in cat, 255
Buckner, C. K., Patil, P. N., Tye, A. and Malspeis, L., 308
Byrne, J. E. and Dresel, P. E., 354

Calcium binding, in muscle subcellular components, influence of cardiac glycosides on, 68
Calcium concentration, and temperature, effect on action of ouabain in quiescent rabbit atria, 354
Cannon, J. G., *see* Chiou, C. Y., 243
Carbachol, evaluation of cholinergic antagonists, 237
Cardiac actions, of lidocaine, 146
Cardiac glycosides, influence on calcium binding in muscle subcellular components, 68
Cardiovascular effect(s)
  of biogenic amines and their precursors in newborn and adult dogs, comparison of, 293
  of ST 155 (Catapres), further observations on, 364
Carrageenin edema, in rats, biphasic development of, 96
Catapres, ST 155, further observations on cardiovascular effects of, 364
Catecholamine(s)
  influence on lens opacities, 8
  structural modifications of, effects on renal tubular transport in the chicken, 52
Cerebral amines, and acute hyperbaric oxygen toxicity, 346
Chaplin, E., *see* Maxwell, R. A., 320
Chiou, C. Y., Long, J. P., Cannon, J. G. and Armstrong, P. D., 243
Chlorpromazine
  effects on behavior maintained by a multiple schedule of reinforcement, 179
  inhibition of dehydration-induced antidiuresis in rats, 63
Cholinergic agonists, muscarinic and nicotinic, comparison of effects on self-stimulation behavior of, 189
Cholinergic antagonists, containing an agonist moiety, pharmacologic evaluation of a new series of, 237
Cholinergic drugs, subsensitivity of rat ileum to, 249
Cholinergic effects, and rates of hydrolysis of conformationally rigid analogs of acetylcholine, 243
Chronotropic effect, of ST 155 (Catapres), further observations on, 364
Clark, F. C., 179
Cocaine, from inhibition of H^3-norepinephrinf uptake in cold-stored smooth muscle, dissociation of supersensitivity to norepinephrine caused by, 26
Cytochemistry, ultrastructural, localization of exogenous 5-hydroxytryptamine in autonomic nerves of rat vas deferens, pharmacology and, 264

de Champlain, J., Mueller, R. A. and Axelrod, J., 339
Denervation, subacute, a means of disclosing mammalian motor nerve terminals as critical sites of acetylcholine and facilitatory drug actions, 217
Dibenzoxazepine, neuropharmacologic evaluation of, 151
Dihydroquinidine, subcellular site of action of, 77
3,4-Dimethoxyphenylethylamine, renal tubular transport in the chicken, 52
Dimethylaminoethyl benzilate ethiodide, derivatives, evaluation of cholinergic antagonists, 237
Domino, E. F., *see* Olds, M. E., 189
Dopamine, renal tubular transport in the chicken, 52
Draskóczy, P. R., *see* Trendelenburg, U., 14
Dresel, P. E., *see* Byrne, J. E., 354
Drug(s)
  action on lens, influence of sympathetic nervous system on, 8
  adrenergic, steric aspects of, some peripheral effects of (±)-*erythro*- and (±)-*threo*-methylphenidate, 308
  cholinergic, subsensitivity of rat ileum to, 249
  facilitatory, actions of acetylcholine and, subacute denervation as a means of disclosing mammalian motor nerve terminals as critical sites of, 217
Dunn, N. M., *see* Sugimoto, T., 146
Dutta, S., *see* Besch, H. R., Jr., 77

Eckhardt, S. B., *see* Maxwell, R. A., 320
Edema, carrageenin, in rats, biphasic development of, 96
Electrocortical recruitment, evaluation of effects of morphine in cat and dog, 134
Epinephrine, renal tubular transport in the chicken, 52
N-Ethoxycarbonyl-1,2-dihydroquinoline, BC-347, nonequilibrium *alpha* adrenergic blockade and neuroleptic activity of, 44
Ethylamine, renal tubular transport in the chicken, 52

Fluorometric procedure modified, for tissue histamine and its distribution in various animals, 285
Flurothyl experimental seizure-threshold testing with, 170

Gaffney, T. E., *see* Privitera, P. J., 293

Gallagher, B. B., *see* Prichard, J. W., 170
Gebber, G. L., 225
Gland, pineal, biorhythms of, alterations by N-methyl-3-piperidyl benzilate (JB336), 119
Glaser, G. H., *see* Prichard, J. W., 170
Glycosides, cardiac, influence on calcium binding in muscle subcellular components, 68
Gokhale, S. D., *see* Gulati, O. D., 35
Goldman, J. M. and Hadley, M. E., 1
Gulati, O. D., Gokhale, S. D., Parikh, H. M., Udwadia, B. P., and Krishnamurty, V. S. R., 35

Hadley, M. E., *see* Goldman, J. M., 1
Hall, W. H., *see* Joos, R. W., 113
Hammerman, D. L., *see* Milmore, J. E., 63
Hemicholinium-3, analogs, heterocyclic, investigations on a series of, 225
Henderson, J. K., *see* Stark, P., 163
Hepatotoxicity, induced by 1,3-bis(2-chloroethyl)-1-nitrosourea (BCNU) in rats, 104
Hidaka, H., Nagatsu, T., Takeya, K., Matsumoto, S. and Yagi, K., 272
Histamine
  evaluation of cholinergic antagonists, 237
  tissue, distribution in various animals, modified fluorometric procedure for, 285
Holtzman, S. G. and Villarreal, J. E., 125
Hudgins, P. M. and Stubbins, J. F., 237
Hugo, R., *see* Vinegar, R., 96
Hydrolysis, of conformationally rigid analogs of acetylcholine, cholinergic effects and rates of, 243
5-Hydroxytryptamine, exogenous, localization in autonomic nerves of rat vas deferens, ultrastructural cytochemistry and pharmacology of, 264

Ileum, rat, subsensitivity to cholinergic drugs, 249
Inotropic effect, of ST 155 (Catapres), further observations on, 364
Iris sphincter, bovine, adrenergic receptors of, 299
Isoproterenol, renal tubular transport in the chicken, 52

Jaim-Etcheverry, G. and Zieher, L. M., 264
JB336, N-methyl-3-piperidyl benzilate, alterations of pineal gland biorhythms by, 119
Joos, R. W. and Hall, W. H., 113

Keenan, P. D., *see* Maxwell, R. A., 320
Klaus, W. and Lee, K. S., 68
Krishnamurty, V. S. R., *see* Gulati, O. D., 35

Lachesine, evaluation of cholinergic antagonists, 237
Larson, R. E., *see* Thompson, G. R., 104
Latimer, C. N., 151
Lee, K. S., *see* Klaus, W., 68
Lens, influence of sympathetic nervous system on action of drugs on, 8
Lidocaine, electrophysiologic effects in awake dogs, 146
Loggie, J. M. H., *see* Privitera, P. J., 293
Long, J. P.
  see Benz, F. W., 225
  see Chiou, C. Y., 243
Lowe, T. E., *see* Nayler, W. G., 364

Malspeis, L., *see* Buckner, C. K., 308
Marks, B. H., *see* Besch, H. R., Jr., 77
Marshall, A. S., *see* Weinstock, M., 8
Martel, R. R., 44
Matsumoto, S., *see* Hidaka, H., 272
Maxwell, R. A., Keenan, P. D., Chaplin, E., Roth, B. and Eckhardt, S. B., 320
McCarty, L. P., *see* Zager, R. F., 205
McCullough, H. N., *see* Varma, D. R., 26
McPhillips, J. J., 249
Melanophore responses, of lizard (*Anolis carolinensis*), *in vitro* demonstration of adrenergic receptors controlling, 1
Membrane, nictitating, cat's, as a factor influencing sensitivity of isolated preparation to *l*-norepinephrine, density of adrenergic innervation of, 14
Merritt, J. H. and Sulkowski, T. S., 119
N-C^{14}-Methyl-codeine, physiologic disposition in the rat, 86
Methylphenidate, (±)-*erythro-* and (±)-*threo-*, some peripheral effects of, steric aspects of adrenergic drugs, 308
N-Methyl-3-piperidyl benzilate, JB336, alterations of pineal gland biorhythms by, 119
Michal, F. and Penglis, F., 276
Milmore, J. E. and Hammerman, D. L., 63
Mitchell, C. L., *see* Mizoguchi, K., 134
Mizoguchi, K. and Mitchell, C. L., 134
Moiety, agonist, pharmacologic evaluation of a new series of cholinergic antagonists containing a, 237
Monoamine oxidase, subcellular localization in rat tissues, 339
Morphine
  dependence and body temperature in rhesus monkeys, 125
  evaluation of effects on electrocortical recruitment in cat and dog, 134
Motor nerve terminals, mammalian, as critical sites of acetylcholine and facilitatory drug actions, subacute denervation as a means of disclosing, 217
Mueller, R. A., *see* de Champlain, J., 339
Muscarinic cholinergic agonists, comparison of effects on self-stimulation behavior of nicotinic and, 189

Muscle
smooth, cold-stored, dissociation of supersensitivity to norepinephrine caused by cocaine from inhibition of H^3-norepinephrine uptake in, 26
subcellular components, influence of cardiac glycosides on calcium binding in, 68

Nagatsu, T., *see* Hidaka, H., 272
Nayler, W. G., Price, J. M., Stone, J. and Lowe, T. E., 364
Nerves, autonomic, of rat vas deferens, localization of exogenous 5-hydroxytryptamine in, ultrastructural cytochemistry and pharmacology of, 264
Nerve endings, adrenergic, ultrastructural cytochemistry and pharmacology of 5-hydroxytryptamine in, 264
Nerve terminals, motor, mammalian, as critical sites of acetylcholine and facilitatory drug actions, subacute denervation as a means of disclosing, 217
Nervous system, sympathetic, influence on action of drugs on lens, 8
Neuroleptic activity, of N-ethoxycarbonyl-1,2-dihydroquinoline (BC-347), nonequilibrium *alpha* adrenergic blockade and, 44
Neurosedatives, sensitivity and specificity of positive reinforcing areas to antidepressants, stimulants and, 163
Nicotine, in cat, neurogenic basis for rise in blood pressure evoked by, 255
Nicotinic cholinergic agonists, comparison of effects on self-stimulation behavior of muscarinic and, 189
Nictitating membrane, cat's, as a factor influencing sensitivity of isolated preparation to *l*-norepinephrine, density of adrenergic innervation of, 14
Norepinephrine
dissociation caused by cocaine from inhibition of H^3-norepinephrine uptake in cold-stored smooth muscle of supersensitivity to, 26
renal tubular transport in the chicken, 52
-sensitive and sodium fluoride-sensitive adenyl cyclase system, similarities and differences in, 330
tritiated, molecular features affecting potency of tricyclic antidepressants and structurally related compounds as inhibitors of uptake by rabbit aortic strips of, 320
H^3-Norepinephrine, uptake in cold-stored smooth muscle, dissociation of supersensitivity to norepinephrine caused by cocaine from inhibition of, 26
l-Norepinephrine, density of adrenergic innervation of cat's nictitating membrane as a factor influencing sensitivity of isolated preparation to, 14

Octopamine, renal tubular transport in the chicken, 52
Okamoto, M. and Riker, W. F., Jr., 217
Olds, M. E. and Domino, E. F., 189
Opacities, lens, influence of catecholamines on, 8
Ouabain, in quiescent rabbit atria, effect of temperature and calcium concentration on action of, 354
Oxidase, monoamine, subcellular localization in rat tissues, 339
Oxilapine, a potent psychoactive agent, neuropharmacologic evaluation of, 151
Oxygen toxicity, acute hyperbaric, cerebral amines and, 346

Parikh, H. M., *see* Gulati, O. D., 35
Patil, P. N., 299
see Buckner, C. K., 308
Penglis, F., *see* Michal, F., 276
Penicillin, determination of binding constants of serum albumin for, 113
Pharmacology
localization of exogenous 5-hydroxytryptamine in autonomic nerves of rat vas deferens, ultrastructural cytochemistry and, 264
of 2-aziridinyl ethanol, 205
Phenylephrine, evaluation of cholinergic antagonists, 237
Phenylethylamine, renal tubular transport in the chicken, 52
Pineal gland, biorhythms of, alterations by N-methyl-3-piperidyl benzilate (JB336), 119
Platelet aggregation, serotonin-induced, inhibition in relation to thrombus production, 276
Pluchino, S., *see* Trendelenburg, U., 14
Pressor effect, of nicotine in cat, 255
Pressure, blood, neurogenic basis for rise in, evoked by nicotine in cat, 255
Price, J. M., *see* Nayler, W. G., 364
Prichard, J. W., Gallagher, B. B. and Glaser, G. H., 170
Privitera, P. J., Loggie, J. M. H. and Gaffney, T. E., 293
Psychoactive agent, potent, neuropharmacologic evaluation of oxilapine as, 151

Quebbemann, A. J. and Rennick, B. R., 52

Receptor(s)
adrenergic, controlling melanophore responses of lizard (*Anolis carolinensis*), *in vitro* demonstration of, 1
adrenergic, of bovine iris sphincter, 299
alpha, sympathetic, evidence for blocking action of *beta* receptor blocking agents, 35

Redman, C. E., *see* Stark, P., 163
Renal tubular transport, in the chicken, effects of structural modifications of catecholamines on, 52
Rennick, B. R., *see* Quebbemann, A. J., 52
Reticulum, sarcoplasmic, fragments of, influence of cardiac glycosides on active Ca^{++} transport mechanism, 68
Riker, W. F., Jr., *see* Okamoto, M., 217
Roth, B., *see* Maxwell, R. A., 320

Saltzman, H. A., *see* Blenkarn, G. D., 346
Sarcoplasmic reticulum, fragments of, influence of cardiac glycosides on active Ca^{++} transport mechanism, 68
Sayre, D. F., *see* Anton, A. H., 285
Schaal, S. F., *see* Sugimoto, T., 146
Schanberg, S. M., *see* Blenkarn, G. D., 346
Schreiber, W., *see* Vinegar, R., 96
Seizure-threshold testing, experimental, with flurothyl, 170
Self-stimulation behavior, comparison of effects of muscarinic and nicotinic cholinergic agonists on, 189
Serotonin
  inactivation by sulfotransferase system, 272
  -induced platelet aggregation, inhibition in relation to thrombus production, 276
Serum albumin, determination of binding constants for penicillin, 113
Smooth muscle, cold-stored, dissociation of supersensitivity to norepinephrine caused by cocaine from inhibition of H^3-norepinephrine uptake in, 26
Sodium fluoride-sensitive and norepinephrine-sensitive adenyl cyclase system, similarities and differences in, 330
Sphincter, iris, bovine, adrenergic receptors of, 299
ST 155, Catapres, further observations on cardiovascular effects of, 364
Standaert, F. G., *see* Zager, R. F., 205
Stark, P., Turk, J. A., Redman, C. E. and Henderson, J. K., 163
Stimulants, sensitivity and specificity of positive reinforcing areas to neurosedatives, antidepressants and, 163
Stone, J., *see* Nayler, W. G., 364
Stubbins, J. F., *see* Hudgins, P. M., 237
Sugimoto, T., Schaal, S. F., Dunn, N. M. and Wallace, A. G., 146
Sulfotransferase system, inactivation of serotonin by, 272
Sulkowski, T. S., *see* Merritt, J. H., 119
Sympathetic *alpha* receptor, evidence for blocking action of *beta* receptor blocking agents, 35
Sympathetic nervous system, influence on action of drugs on lens, 8

Takeya, K., *see* Hidaka, H., 272
Temperature
  and calcium concentration, effect on action of ouabain in quiescent rabbit atria, 354
  body, in rhesus monkeys, morphine dependence and, 125
Thompson, G. R. and Larson, R. E., 104
Thrombus, production, inhibition of serotonin-induced platelet aggregation in relation to, 276
Tissue
  histamine, distribution in various animals, modified fluorometric procedure for, 285
  rat, subcellular localization of monoamine oxidase in, 339
Toxicity, oxygen, acute hyperbaric, cerebral amines and, 346
Trendelenburg, U., Draskóczy, P. R. and Pluchino, S., 14
Tricyclic antidepressants, and structurally related compounds as inhibitors of uptake of tritiated norepinephrine by rabbit aortic strips, molecular features affecting potency of, 320
Tubular transport, renal, in the chicken, effects of structural modifications of catecholamines on, 52
Turk, J. A., *see* Stark, P., 163
Tye, A., *see* Buckner, C. K., 308
Tyramine, renal tubular transport in the chicken, 52

Udwadia, B. P., *see* Gulati, O. D., 35
Uptake of tritiated norepinephrine by rabbit aortic strips, molecular features affecting potency of tricyclic antidepressants and structurally related compounds as inhibitors of, 320

Varma, D. R. and McCullough, H. N., 26
Vas deferens, rat, localization of exogenous 5-hydroxytryptamine in autonomic nerves of, 264

CONTENTS OF VOLUME 166

No. 1, March 1969

In Vitro Demonstration of Adrenergic Receptors Controlling Melanophore Responses of the Lizard, *Anolis carolinensis*. Joel M. Goldman and Mac E. Hadley 1

The Influence of the Sympathetic Nervous System on the Action of Drugs on the Lens. Marta Weinstock and A. S. Marshall 8

The Density of Adrenergic Innervation of the Cat's Nictitating Membrane as a Factor Influencing the Sensitivity of the Isolated Preparation to *l*-Norepinephrine. U. Trendelenburg, P. R. Draskóczy and S. Pluchino 14

Dissociation of the Supersensitivity to Norepinephrine Caused by Cocaine from Inhibition of H^3-Norepinephrine Uptake in Cold-Stored Smooth Muscle. D. R. Varma and H. N. McCullough 26

Evidence for a Sympathetic *Alpha* Receptor Blocking Action of *Beta* Receptor Blocking Agents. O. D. Gulati, S. D. Gokhale, H. M. Parikh, B. P. Udwadia and V. S. R. Krishnamurty 35

Nonequilibrium *Alpha* Adrenergic Blockade and Neuroleptic Activity of N-Ethoxycarbonyl-1,2-Dihydroquinoline (BC-347). R. R. Martel 44

Effects of Structural Modifications of Catecholamines on Renal Tubular Transport in the Chicken. Aloysius J. Quebbemann and Barbara R. Rennick 52

Chlorpromazine Inhibition of Dehydration-Induced Antidiuresis in Rats. John Edward Milmore and David L. Hammerman 63

Influence of Cardiac Glycosides on Calcium Binding in Muscle Subcellular Components. W. Klaus and K. S. Lee 68

On the Subcellular Site of Dihydroquinidine Action. H. R. Besch, Jr., B. H. Marks and S. Dutta 77

Physiologic Disposition of N-C^{14}-Methyl-Codeine in the Rat. S. Y. Yeh and L. A. Woods 86

Biphasic Development of Carrageenin Edema in Rats. R. Vinegar, W. Schreiber and R. Hugo 96

The Hepatotoxicity of 1,3-Bis(2-Chloroethyl)-1-Nitrosourea (BCNU) in Rats. George R. Thompson and Robert E. Larson 104

Determination of Binding Constants of Serum Albumin for Penicillin. Richard W. Joos and Wendell H. Hall 113

Alterations of Pineal Gland Biorhythms by N-Methyl-3-Piperidyl Benzilate (JB336). James H. Merritt and Thomas S. Sulkowski 119

Morphine Dependence and Body Temperature in Rhesus Monkeys. Stephen G. Holtzman and Julian E. Villarreal 125

An Evaluation of the Effects of Morphine on Electrocortical Recruitment in the Cat and Dog. Koji Mizoguchi and C. L. Mitchell 134

Electrophysiologic Effects of Lidocaine in Awake Dogs. Tsuneaki Sugimoto, Stephen F. Schaal, Neil M. Dunn and Andrew G. Wallace 146

Neuropharmacologic Evaluation of Oxilapine, a Potent Psychoactive Agent. Clinton N. Latimer 151

Sensitivity and Specificity of Positive Reinforcing Areas to Neurosedatives, Antidepressants and Stimulants. Paul Stark, John A. Turk, Charles E. Redman and John K. Henderson 163

Experimental Seizure-Threshold Testing with Flurothyl. James W. Prichard, Brian B. Gallagher and Gilbert H. Glaser 170

No. 2, April 1969

Effects of Chlorpromazine on Behavior Maintained by a Multiple Schedule of Reinforcement. Fogle C. Clark 179

Comparison of Muscarinic and Nicotinic Cholinergic Agonists on Self-Stimulation Behavior. Marianne E. Olds and Edward F. Domino 189

The Pharmacology of 2-Aziridinyl Ethanol. Robert F. Zager, Leslie P. McCarty and Frank G. Standaert 205
Subacute Denervation: A Means of Disclosing Mammalian Motor Nerve Terminals as Critical Sites of Acetylcholine and Facilitatory Drug Actions. Michiko Okamoto and Walter F. Riker, Jr. 217
Investigations on a Series of Heterocyclic Hemicholinium-3 Analogs. F. W. Benz and J. P. Long 225
Pharmacologic Evaluation of a New Series of Cholinergic Antagonists Containing an Agonist Moiety. Patricia M. Hudgins and James F. Stubbins 237
The Cholinergic Effects and Rates of Hydrolysis of Conformationally Rigid Analogs of Acetylcholine. C. Y. Chiou, J. P. Long, J. G. Cannon and P. D. Armstrong 243
Subsensitivity of the Rat Ileum to Cholinergic Drugs. Joseph J. McPhillips 249
Neurogenic Basis for the Rise in Blood Pressure Evoked by Nicotine in the Cat. Gerard L. Gebber 255
Ultrastructural Cytochemistry and Pharmacology of 5-Hydroxytryptamine in Adrenergic Nerve Endings. I. Localization of Exogenous 5-Hydroxytryptamine in the Autonomic Nerves of the Rat Vas Deferens. Guillermo Jaim-Etcheverry and Luis Maria Zieher 264
Inactivation of Serotonin by Sulfotransferase System. Hiroyoshi Hidaka, Toshiharu Nagatsu, Kazumi Takeya, Shosei Matsumoto and Kunio Yagi 272
Inhibition of Serotonin-Induced Platelet Aggregation in Relation to Thrombus Production. Frank Michal and Fylia Penglis 276
A Modified Fluorometric Procedure for Tissue Histamine and Its Distribution in Various Animals. Aaron H. Anton and David F. Sayre 285
A Comparison of the Cardiovascular Effects of Biogenic Amines and Their Precursors in Newborn and Adult Dogs. Philip J. Privitera, Jennifer M. H. Loggie and Thomas E. Gaffney 293
Adrenergic Receptors of the Bovine Iris Sphincter. P. N. Patil 299
Steric Aspects of Adrenergic Drugs. XII. Some Peripheral Effects of (±)-*Erythro*- and (±)-*Threo*-Methylphenidate. C. K. Buckner, P. N. Patil, A. Tye and L. Malspeis 308
Molecular Features Affecting the Potency of Tricyclic Antidepressants and Structurally Related Compounds as Inhibitors of the Uptake of Tritiated Norepinephrine by Rabbit Aortic Strips. R. A. Maxwell, P. D. Keenan, E. Chaplin, B. Roth and S. Batmanglidj Eckhardt 320
Similarities and Differences in the Norepinephrine- and Sodium Fluoride-Sensitive Adenyl Cyclase System. Benjamin Weiss 330
Subcellular Localization of Monoamine Oxidase in Rat Tissues. Jacques de Champlain, Robert A. Mueller and Julius Axelrod 339
Cerebral Amines and Acute Hyperbaric Oxygen Toxicity. G. Douglas Blenkarn, Saul M. Schanberg and Herbert A. Saltzman 346
The Effect of Temperature and Calcium Concentration on the Action of Ouabain in Quiescent Rabbit Atria. Jeffrey E. Byrne and Peter E. Dresel 354
Further Observations on the Cardiovascular Effects of ST 155 (Catapres). Winifred G. Nayler, Jocelyn M. Price, James Stone and Thomas E. Lowe 364
Index, Volume 166, March–April 1969 375

INDEX

Volume 167, May–June 1969

Absorption, intestinal, of six tritium-labeled digitalis glycosides in rats and guinea pigs, 265

Acetaldehyde, sympathomimetic effects on electrical and contractile characteristics of isolated left atria of guinea pigs, 173

Acetylcholine, effect of denervation on sensitivity of superior cervical ganglion of pithed cat, 143

Acetylcholinesterase, human, chymotrypsin, trypsin and, action of phenylmethylsulfonyl fluoride on, 98

Adrenalectomy, influence on synthesis of norepinephrine in rat heart, 300

Adrenergic actions, of acetaldehyde on electrical and contractile characteristics of isolated left atria of guinea pigs, 173

Adrenergic blocking drug, *beta*, *dl*-propranolol, effects on myocardial free fatty acid and carbohydrate metabolism, 187

Adrenergic systems, interaction with ventricular cholinergic receptor systems, 282

Alcohol dehydrogenase, in metabolism of tolbutamide in rat liver, 91

Aldehyde dehydrogenase, in metabolism of tolbutamide in rat liver, 91

Aldosterone, effect on membrane potential of cardiac muscle fibers, 166

Allen, D. O., Calvert, D. N. and Lum, B. K. B.: Selective augmentation of the pressor responses to catecholamines by metanephrine, 309

Amakata, Y., *see* Kitahata, L. M., 14

Amines, sympathomimetic, slopes of dose-response curves for, and shifts produced by a competitive antagonist, effect of a saturable uptake mechanism on, 117

Amitriptyline, effect on uptake and metabolism of tyramine-H^3 in rat heart, 151

Ammonium compounds, quaternary, uptake and distribution in central nervous system of rat, 56

d-Amphetamine
- effects in phenylquinone and Rotarod tests, 9
- effects on performance under several parameters of multiple fixed-ratio, fixed-interval schedules, 26

Analgesics, and other drugs, effects on mice in phenylquinone and Rotarod tests, 9

Anesthetics, local, some effects on isolated mitochondria, 365

Angiotensin II, and analogs, inhibition of norepinephrine uptake in hearts by, 291

Anhydrase, carbonic, renal, inhibition by benzolamide (CL 11,366) in man, 253

Antagonist(s)
- competitive, effect of a saturable uptake mechanism on slopes of dose-response curves for sympathomimetic amines and on shifts produced by, 117
- narcotic, nalorphine, levallorphan, *l*-cyclazocine and *l*-pentazocine, effects in phenylquinone and Rotarod tests, 9

Antifertility steroid(s)
- norethindrone, metabolic removal of a 17α-ethynyl group from, 217
- norethynodrel, metabolism of, 207

Arnold, K., *see* Gerber, N., 77

Artery, sinus node, canine, *in situ*, atrial fibrillation induced by infusion of hypertonic solutions into, 274

Atria, left, isolated, of guinea pigs, sympathomimetic effects of acetaldehyde on electrical and contractile characteristics of, 173

Atrial fibrillation, induced by infusion of hypertonic solutions into canine sinus node artery *in situ*, 274

Auditory recovery functions, in cats, effects of halothane upon, 14

Baggett, B., *see* Palmer, K. H., 207, 217

Behavior
- operant, and brain catecholamine levels, effect of α-methyltyrosine on, 319
- schedule-controlled, multiple fixed-ratio, fixed-interval schedules, effects of *d*-amphetamine on performance under several parameters of, 26

Benzolamide, CL 11,366, in man, renal carbonic anhydrase inhibition by, 253

Beta adrenergic blocking drug, *dl*-propranolol, effects on myocardial free fatty acid and carbohydrate metabolism, 187

α,α'-Bis-(dimethylammoniumacetaldehyde diethylacetal)-*p*,*p'*-diacetylbiphenyl bromide, DMAE, effects on neuromuscular transmission, 344

Blockade, *beta* adrenergic, effects of *dl*-propranolol on myocardial free fatty acid and carbohydrate metabolism, 187

Bowen, J. M. and Merry, E. H.: Influence of *d*-tubocurarine, decamethonium and succinylcholine on repetitively evoked end-plate potentials, 334

Bowie, W. C., *see* Lindstrom, H. V., 223
Brain
  cat, circadian and ultradian rhythms of serotonin regionally in, 328
  catecholamine levels, effect of α-methyltyrosine on operant behavior and, 319
Bressler, R., *see* McDaniel, H. G., 91
Brody, T. M., *see* Commarato, M. A., 151
Bumpus, F. M., *see* Peach, M. J., 291

Calvert, D. N., *see* Allen, D. O., 309
Carbachol, effect of denervation on sensitivity of superior cervical ganglion of pithed cat, 143
Carbohydrate metabolism, effects of *dl*-propranolol on myocardial free fatty acid and, 187
Carbonic anhydrase, renal, inhibition by benzolamide (CL 11,366) in man, 253
Carboxytolbutamide, in metabolism of tolbutamide in rat liver, 91
Cardiac muscle fibers, effect of aldosterone on membrane potential of, 166
Carrier-like protein, for organic bases from kidney, partial purification of, 243
Catecholamine(s)
  levels, brain, effect of α-methyltyrosine on operant behavior and, 319
  pressor responses to, selective augmentation by metanephrine, 309
Caudate nucleus, canine, and hippocampus, intracellular distribution of C^{14}-hemicholinium-3 in, 63
Central nervous system
  of rat, uptake and distribution of some quaternary ammonium compounds in, 56
  supersensitivity to pilocarpine after withdrawal of chronically administered scopolamine, 45
  thermoregulation by pilocarpine, 34
Cervical ganglion, superior, of pithed cat, effect of denervation on sensitivity of, 143
Chiba, S., Suzuki, Y. and Hashimoto, K.: Atrial fibrillation induced by infusion of hypertonic solutions into the canine sinus node artery *in situ*, 274
Chiou, C. Y. and Long, J. P.: Effects of α,α′-bis-(dimethylammoniumacetaldehyde diethylacetal)-*p*,*p*′-diacetylbiphenyl bromide (DMAE) on neuromuscular transmission, 344
Chlorpromazine, effects in phenylquinone and Rotarod tests, 9
Cholinergic receptor systems, ventricular, interaction with adrenergic systems, 282
Cholinomimetics, characterization of stimulation of mammalian extraocular muscles by, 351
Chymotrypsin, human, acetylcholinesterase, trypsin and, action of phenylmethylsulfonyl fluoride on, 98
Circadian rhythm, and ultradian, of serotonin regionally in cat brain, 328
CL 11,366, benzolamide, renal carbonic anhydrase inhibition in man by, 253
CL 65,562, (4-(α,α,α-trifluoro-*m*-toluidino)-nicotinic acid), a novel "high ceiling" diuretic, 194
Commarato, M. A., Brody, T. M. and McNeill, J. H.: The effect of various drugs on the uptake and metabolism of tyramine-H^3 in the rat heart, 151
Conners, J., *see* Reis, D. J., 328
Contraceptive, postcoital, oral, new, 2-methyl-3-ethyl-4-phenyl-Δ^4-cyclohexene carboxylic acid, sodium salt (ORF-4563), studies on antifertility effect and metabolism of, 105
Convallatoxol, intestinal absorption in rats and guinea pigs, 265
Cooper, T., *see* Dempsey, P. J., 282
Corbascio, A. N., *see* Turini, P., 98
Corvelli, A., *see* Reis, D. J., 328
Cummings, J. R., *see* Gussin, R. Z., 194
l-Cyclazocine, effects in phenylquinone and Rotarod tests, 9

Decamethonium, *d*-tubocurarine, succinylcholine and, influence on repetitively evoked endplate potentials, 334
de Mello, W. C. and Motta, G. E.: The effect of aldosterone on membrane potential of cardiac muscle fibers, 166
Dempsey, P. J. and Cooper, T.: Ventricular cholinergic receptor systems: Interaction with adrenergic systems, 282
Denervation, effect on sensitivity of superior cervical ganglion of pithed cat, 143
Dibenamine, attempts to label the renal carrier for organic bases with, 235
Digitalis glycosides, six tritium-labeled, in rats and guinea pigs, intestinal absorption of, 265
Digitoxin, intestinal absorption in rats and guinea pigs, 265
Digoxin, intestinal absorption in rats and guinea pigs, 265
Dihydroouabain, intestinal absorption in rats and guinea pigs, 265
Diisopropylfluorophosphate, effect of denervation on sensitivity of superior cervical ganglion of pithed cat, 143
Diphenylhydantoin, metabolism of, studies in mice, 77
Diuretic, a novel "high ceiling," CL 65,562 (4-(α,α,α-trifluoro-*m*-toluidino)-nicotinic acid), 194
DMAE, α,α′-bis-(dimethylammoniumacetaldehyde diethylacetal)-*p*,*p*′-diacetylbiphenyl

bromide, effects on neuromuscular transmission, 344
Domino, E. F., *see* Sellinger, O. Z., 63
Dose-response curves, slopes for sympathomimetic amines and shifts produced by a competitive antagonist, effect of a saturable uptake mechanism on, 117
Dutta, S., *see* Greenberger, N. J., 265

End-plate potentials, repetitively evoked, influence of *d*-tubocurarine, decamethonium and succinylcholine on, 334
17α-Ethynyl group, metabolic removal from the antifertility steroid, norethindrone, 217
Extraocular muscles, mammalian, characterization of stimulation by cholinomimetics, 351

CONTENTS OF VOLUME 167

No. 1, May 1969

Simultaneous Quantitative Assessment of Morphine Tolerance and Physical Dependence. E. Leong Way, Horace H. Loh and Fu-Hsiung Shen 1

Effects of Analgesics and Other Drugs on Mice in Phenylquinone and Rotarod Tests. Jack Pearl, Herbert Stander and Donna B. McKean 9

Effects of Halothane upon Auditory Recovery Functions in Cats. Luke M. Kitahata, Yoshikuni Amakata and Robert Galambos 14

Effects of *d*-Amphetamine on Performance under Several Parameters of Multiple Fixed-Ratio, Fixed-Interval Schedules. D. E. McMillan 26

A Central Hypothermic Response to Pilocarpine in the Mouse. Matthew J. Friedman and Jerome H. Jaffe 34

Central Nervous System Supersensitivity to Pilocarpine after Withdrawal of Chronically Administered Scopolamine. Matthew J. Friedman, Jerome H. Jaffe and Seth K. Sharpless 45

Uptake and Distribution of Some Quaternary Ammonium Compounds in the Central Nervous System of the Rat. J. A. Gosling and T. C. Lu 56

Intracellular Distribution of C^{14}-Hemicholinium-3 in the Canine Caudate Nucleus and Hippocampus. Otto Z. Sellinger, Edward F. Domino, Vernon B. Haarstad and Margaret E. Mohrman 63

Studies on the Metabolism of Diphenylhydantoin in Mice. Nicholas Gerber and Keith Arnold 77

The Metabolism of Tolbutamide in Rat Liver. Huey G. McDaniel, Helen Podgainy and Rubin Bressler 91

The Action of Phenylmethylsulfonyl Fluoride on Human Acetylcholinesterase, Chymotrypsin and Trypsin. Paola Turini, Shigeru Kurooka, Michael Steer, Aldo N. Corbascio and Thomas P. Singer 98

Studies on the Antifertility Effect and Metabolism of a New, Postcoital Oral Contraceptive, 2-Methyl-3-Ethyl-4-Phenyl-Δ^4-Cyclohexene Carboxylic Acid, Sodium Salt (ORF-4563). Allan S. Yard, Laszlo P. Juhasz and R. M. Grimes 105

The Effect of a Saturable Uptake Mechanism on the Slopes of Dose-Response Curves for Sympathomimetic Amines and on the Shifts of Dose-Response Curves Produced by a Competitive Antagonist. S. Z. Langer and U. Trendelenburg 117

The Effect of Denervation on the Sensitivity of the Superior Cervical Ganglion of the Pithed Cat. Richard D. Green, III 143

The Effect of Various Drugs on the Uptake and Metabolism of Tyramine-H^3 in the Rat Heart. Michael A. Commarato, Theodore M. Brody and John H. McNeill 151

Temperature Changes Induced by Imidazoline Sympathomimetics in the Rat. Peter Lomax and R. S. Foster 159

The Effect of Aldosterone on Membrane Potential of Cardiac Muscle Fibers. W. C. de Mello and G. E. Motta 166

Sympathomimetic Effects of Acetaldehyde on the Electrical and Contractile Characteristics of Isolated Left Atria of Guinea Pigs. Michael J. Walsh, Philip B. Hollander and Edward B. Truitt, Jr. 173

Effects of *dl*-Propranolol on Myocardial Free Fatty Acid and Carbohydrate Metabolism. T. N. Masters and V. V. Glaviano 187

CL 65,562 (4-(α,α,α-Trifluoro-*m*-Toluidino)-Nicotinic Acid), a Novel "High Ceiling" Diuretic. R. Z. Gussin, J. R. Cummings, E. H. Stokey and M. A. Ronsberg 194

No. 2, June 1969

Metabolism of Antifertility Steroids. I. Norethynodrel. Keith H. Palmer, Frances T. Ross, L. Sue Rhodes, Billy Baggett and Monroe E. Wall 207

Metabolic Removal of a 17α-Ethynyl Group from the Antifertility Steroid, Norethindrone. Keith H. Palmer, Jane F. Feierabend, Billy Baggett and M. E. Wall. 217

The Toxicity and Metabolism of Mesidine and Pseudocumidine in Rats. H. V. Lindstrom, W. C. Bowie, W. C. Wallace, A. A. Nelson and O. G. Fitzhugh 223
Attempts to Label the Renal Carrier for Organic Bases with Dibenamine. Charles R. Ross, Ness I. Pessah and Alfred E. Farah 235
The Partial Purification of a Carrier-Like Protein for Organic Bases from the Kidney. S. Magour, A. Farah and A. Sroka 243
Renal Carbonic Anhydrase Inhibition by Benzolamide (CL 11,366) in Man. David M. Travis 253
Intestinal Absorption of Six Tritium-Labeled Digitalis Glycosides in Rats and Guinea Pigs. Norton J. Greenberger, Richard P. MacDermott, James F. Martin and Saradindu Dutta 265
Atrial Fibrillation Induced by Infusion of Hypertonic Solutions into the Canine Sinus Node Artery *in Situ*. Shigetoshi Chiba, Yasuyuki Suzuki and Koroku Hashimoto 274
Ventricular Cholinergic Receptor Systems: Interaction with Adrenergic Systems. Peter J. Dempsey and Theodore Cooper 282
Inhibition of Norepinephrine Uptake in Hearts by Angiotensin II and Analogs. Michael J. Peach, F. Merlin Bumpus and Philip A. Khairallah 291
Influence of Adrenalectomy on the Synthesis of Norepinephrine in the Rat Heart. Thomas C. Westfall and Hirofumi Osada 300
Selective Augmentation of the Pressor Responses to Catecholamines by Metanephrine. Donald O. Allen, Deane N. Calvert and Bert K. B. Lum 309
Effect of α-Methyltyrosine on Operant Behavior and Brain Catecholamine Levels. Ronald I. Schoenfeld and Lewis S. Seiden 319
Circadian and Ultradian Rhythms of Serotonin Regionally in Cat Brain. Donald J. Reis, Anthony Corvelli and Judith Conners 328
Influence of *d*-Tubocurarine, Decamethonium and Succinylcholine on Repetitively Evoked End-Plate Potentials. John M. Bowen and Edward H. Merry 334
Effects of α,α'-Bis-(Dimethylammoniumacetaldehyde Diethylacetal)-p,p'-Diacetylbiphenyl Bromide (DMAE) on Neuromuscular Transmission. C. Y. Chiou and J. P. Long 344
Characterization of Stimulation of Mammalian Extraocular Muscles by Cholinomimetics. I. S. Sanghvi and Cedric M. Smith 351
Some Effects of Local Anesthetics on Isolated Mitochondria. Carl L. Johnson and Arnold Schwartz 365
The Effect of β-Pyridyl Carbinol on Plasma Free Fatty Acids in the Sheep. E. R. Nye and Patricia A. McCaw 374
Errata 377
Index, Volume 167, May–June 1969 379

INDEX

Volume 168, July–August 1969

Acetylcholine
direct effects on pulmonary veins in intact dogs, 96
nicotinic and muscarinic receptors in cardiac sympathetic ganglia of dog, 106
Acetylsalicylic acid, nonsteroidal antirheumatic drug, Evans blue–carrageenan pleural effusion as a model for assay of, 199
Acid hydrolysis, isolation of two different glucuronide metabolites of naloxone from urine of rabbit and chicken, 180
Adams, W. J., Yeh, S. Y., Woods, L. A. and Mitchell, C. L.: Drug-test interaction as a factor in the development of tolerance to the analgesic effect of morphine, 251
Na^+,K^+-Adenosine triphosphatase
cardiac, possible involvement in mechanism of action of cardiac glycosides, 31
from rat heart, insensitivity to cardiac glycosides, 42
Adenyl cyclase, of rat pineal gland, effects of environmental lighting and chronic denervation on activation by norepinephrine and sodium fluoride, 146
Adrenergic blocking drug, *beta*, studies on *dl*-4-(2-hydroxy-3-isopropylaminopropoxy)-indole (LB 46), 116
Adrenergic nerve endings, of rabbit pulmonary artery, effects of nicotine, dimethylphenylpiperazinium and cholinergic blocking agents at, 127
Adrenergic neurohumors, drug-induced changes in availability at central adrenergic effector sites, 272
Adrenergic receptors, *alpha* and *beta*, influence on negative chronotropic effect of tyramine on isolated guinea-pig atria, 290
Ailion, J., *see* Bliss, E. L., 258
Alcohol, ethyl, acquisition and loss of tolerance by rat, 244
Aldosterone secretion, effects of valyl^5-angiotensin II and valyl^5-β-(pyrazolyl-3)-L-alanyl^6-angiotensin II on, 295
Alkaloids, absorption of, isolation of two different glucuronide metabolites of naloxone from urine of rabbit and chicken, 180
Allen, J. C. and Schwartz, A.: A possible biochemical explanation for the insensitivity of the rat to cardiac glycosides, 42
Allen, J. C., *see* Schwartz, A., 31
Alpha adrenergic receptors, influence on negative chronotropic effect of tyramine on isolated guinea-pig atria, 290
Amines, neurogenic, response to aggregation and strangers, 258
Amino acid, α-methyltyrosine, renal handling of, 310
Aminophylline, effect on large and small coronary vessels, 70
Ammonium ions, mono- and bisquaternary, accumulation by kidney cortex slices, 6
Amphetamine, detection by gas chromatography of a halogenated derivative of, 205
Analgesic drug, morphine, drug-test interaction as a factor in development of tolerance to, 251
Anesthesia, induced by 2-(ethylamino)-2-(2-thienyl)cyclohexanone·HCl (CI-634), 171
Aniline hydroxylase, hepatic microsomal, ethylmorphine N-demethylase and, associated with pregnancy in rats, alterations in kinetic constants for, 224
Antirheumatic drugs, nonsteroidal, Evans blue–carrageenan pleural effusion as a model for assay of, 199
Archer, E. G., *see* King, L. J., 163
Artery, pulmonary, rabbit, effects of nicotine, dimethylphenylpiperazinium and cholinergic blocking agents at adrenergic nerve endings of, 127
ATPase
Na^+,K^+-, effects of cardiac glycosides on, 31
Na^+,K^+-, from rat heart, insensitivity to cardiac glycosides, 42
Atria, guinea-pig, isolated, negative chronotropic effect of tyramine on, 290
Atrium, rabbit, quinidine-induced changes in excitability and contractility in, 47
Atropine
influence on negative chronotropic effect of tyramine on isolated guinea-pig atria, 290
nicotinic and muscarinic receptors in cardiac sympathetic ganglia of dog, 106
Avoidance response, conditioned, motor activity and, effect of α-methyl dopa on reserpine-induced suppression of, 153

Barbiturate, convulsant, 5-(2-cyclohexylidene-ëthyl)-5-ethyl barbituric acid, effects on spinal monosynaptic pathway, 283
Barr, C. F., *see* Polet, H., 187
Benz, F. W. and Long, J. P.: Structure-activity relationships of N-alkyl and heterocyclic analogs of hemicholinium-3, 315
3,4-Benzpyrene, effect on biliary flow, 218
Berman, N. D., *see* LeBlanc, A. E., 244
Beta adrenergic blocking drug, studies on *dl*-4-

(2-hydroxy-3-isopropylaminopropoxy)-indole (LB 46), 116
Beta adrenergic receptors, influence on negative chronotropic effect of tyramine on isolated guinea-pig atria, 290
Bevan, J. A., *see* Nedergaard, O. A., 127
Biliary flow, after microsomal enzyme induction, 218
Bliss, E. L. and Ailion, J.: Response of neurogenic amines to aggregation and strangers, 258
Blocking agents, cholinergic, nicotine, dimethylphenylpiperazinium and, effects at adrenergic nerve endings of rabbit pulmonary artery, 127
Blocking drug, adrenergic, *beta*, studies on *dl*-4-(2-hydroxy-3-isopropylaminopropoxy)-indole (LB 46), 116
Blood pressure, effects of valyl^5-angiotensin II and valyl^5-β-(pyrazolyl-3)-L-alanyl^6-angiotensin II on, 295
Blood serum, binding of gallium by, 193
Bohner, B., *see* Chen, G., 171
Boissier, J. R., *see* Giudicelli, J.-F., 116
Bone
  localization of lesions by gallium, 193
  rat, embryonic, inhibition by steroids of parathyroid hormone-induced Ca^{45} release from *in vitro*, 211
Boukma, S. J., *see* Johnson, G. A., 229
Brain
  energy reserves and cations *in vivo*, effects of lithium on, 163
  rat, separation of catecholamine-storing synaptosomes in different regions of, 264
Buckley, J. P., *see* Hageman, W. E., 295

Ca^{45}, release from embryonic rat bone *in vitro*, parathyroid hormone-induced, inhibition by steroids of, 211
Caffeine, effects on glucose metabolism of polymorphonuclear leukocytes, 240
Calcium
  binding to cardiac microsomes, mitochondria and Na^+,K^+-adenosine triphosphatase, 31
  concentration, effect on quinidine-induced changes in myocardial excitability and contractility, 47
Call, J. B., *see* Guarino, A. M., 224
Calorigenesis, catecholamine-induced, from lipolysis and glycogenolysis in intact animals, dissociation of, 137
Carbamylcholine, effect on cardiac action potentials in normal, denervated and reserpine-pretreated cat heart muscle, 60
Cardiac glycosides
  mechanism of action of, possible involvement of cardiac Na^+,K^+-adenosine triphosphatase in, 31
  possible biochemical explanation for insensitivity of rat to, 42
Cardiac sympathetic ganglia, of dog, nicotinic and muscarinic receptors in, 106
Carl, J. L., *see* King, L. J., 163
Carrageenan, pleural effusion caused by Evans blue and, as a model for assay of nonsteroidal antirheumatic drugs, 199
Castellanet, M., *see* King, L. J., 163
Catalepsy, produced by 2-(ethylamino)-2-(2-thienyl)cyclohexanone·HCl (CI-634), 171
Catecholamine(s)
  -induced calorigenesis from lipolysis and glycogenolysis in intact animals, dissociation of, 137
  in mice, response to aggregation and strangers, 258
  role in electrical membrane activity and frequency-force relations in normal, denervated and reserpine-pretreated cat heart muscle, 60
  -storing synaptosomes in different regions of rat brain, separation of, 264
Cations, brain energy reserves *in vivo* and, effects of lithium on, 163
Central nervous system
  effect of 2-(ethylamino)-2-(2-thienyl)cyclohexanone·HCl (CI-634), 171
  effects of valyl^5-angiotensin II and valyl^5-β-(pyrazolyl-3)-L-alanyl^6-angiotensin II on, 295
Cervoni, P., *see* Spilker, B., 60
Chen, G., Ensor, C. R. and Bohner, B.: The pharmacology of 2-(ethylamino)-2-(2-thienyl)-cyclohexanone·HCl (CI-634), 171
Chez, R. A., Horger, E. O., III and Schultz, S. G.: The effect of ethacrynic acid on sodium transport by isolated rabbit ileum, 1
Chlorcyclizine, effect on biliary flow, 218
Chlordane, effect on biliary flow, 218
Chlorisondamine, nicotinic and muscarinic receptors in cardiac sympathetic ganglia of dog, 106
Chloroquine-3-H^3, uptake by *Plasmodium knowlesi in vitro*, 187
Chloroquine phosphate, nonsteroidal antirheumatic drug, Evans blue–carrageenan pleural effusion as a model for assay of, 199
Cholesterol, effect on bone resorption, 211
Cholinergic blocking agents, nicotine, dimethylphenylpiperazinium and, effects at adrenergic nerve endings of rabbit pulmonary artery, 127
Chromatography, gas, of a halogenated derivative of amphetamine, method for detecting, 205
Chromonar, effect on large and small coronary vessels, 70
Chronotropic effect, negative, of tyramine on isolated guinea-pig atria, 290
CI-634, 2-(ethylamino)-2-(2-thienyl)cyclohexanone·HCl, pharmacology of, 171

Conditioned avoidance response, motor activity and, effect of α-methyl dopa on reserpine-induced suppression of, 153
Contractility, and excitability, myocardial, quinidine-induced changes in, factors influencing, 47
Coronary dilators, and nitrates, effect on large and small coronary vessels, an hypothesis for mechanism of action of nitrates, 70
Coronary vessels, large and small, effect of coronary dilators on, an hypothesis for mechanism of action of nitrates, 70
Cortex slices, kidney, binding of organic bases to, 6
Corticosterone, inhibitor of parathyroid hormone-induced Ca^{45} release from embryonic rat bone *in vitro*, 211
Crew, M. C., *see* DiCarlo, F. J., 235

Decamethonium, binding to kidney cortex slices, 6
Denervation, chronic, environmental lighting and, effects on activation of adenyl cyclase of rat pineal gland by norepinephrine and sodium fluoride, 146
Desipramine, (DMI), modification of availability of norepinephrine released by reserpine in hypothalamus of rat *in vivo* by, 272
Dexamethasone, inhibitor of parathyroid hormone-induced Ca^{45} release from embryonic rat bone *in vitro*, 211
Diamond, J. and Marshall, J. M.: A comparison of the effects of various smooth muscle relaxants on the electrical and mechanical activity of rat uterus, 21

  intestinal, effects of valyl^5-angiotensin II and valyl^5-β-(pyrazolyl-3)-L-alanyl^6-angiotensin II on, 295

Muscle relaxants
smooth, comparison of effects on electrical and mechanical activity of rat uterus, 21
smooth, dissociation between resting membrane potential and resting tension in rat myometrium by, 13
Myometrium
rat, comparison of effects of various smooth muscle relaxants on electrical and mechanical activity of, 21
rat, dissociation between resting membrane potential and resting tension by smooth muscle relaxants in, 13

Naloxone, two different glucuronide metabolites of, isolation from urine of rabbit and chicken, 180
Nedergaard, O. A. and Bevan, J. A.: Effects of nicotine, dimethylphenylpiperazinium and cholinergic blocking agents at adrenergic nerve endings of the rabbit pulmonary artery, 127
Nerve endings, adrenergic, of rabbit pulmonary artery, effects of nicotine, dimethylphenylpiperazinium and cholinergic blocking agents at, 127
Nervous system
central, effect of 2-(ethylamino)-2-(2-thienyl)-cyclohexanone·HCl (CI-634), 171
central, effects of valyl^5-angiotensin II and valyl^5-β-(pyrazolyl-3)-L-alanyl^8-angiotensin II on, 295
Neurogenic amines, response to aggregation and strangers, 258
Nicotine, dimethylphenylpiperazinium, cholinergic blocking agents and, effects at adrenergic nerve endings of rabbit pulmonary artery, 127
Nicotinic receptors, and muscarinic, in cardiac sympathetic ganglia of dog, 106
Nikethamide, effect on biliary flow, 218
Nitrates, and other coronary dilators, effect on large and small coronary vessels, an hypothesis for mechanism of action of, 70
Nitroglycerin
effect on large and small coronary vessels, 70
effect on rat myometrium, 13, 21
Noonan, J. S., Murdick, P. W. and Ray, R. S.: A method for detecting amphetamine using gas chromatography of a halogenated derivative, 205
Norepinephrine
cardiac stimulating effects of, antagonized by LB 46, 116
effect on rat myometrium, 13
exogenous and endogenous, subcellular localization of, in different regions of rat brain, 264
in mice, response to aggregation and strangers, 258
released by reserpine in hypothalamus of rat *in vivo*, modification by desipramine (DMI) of availability of, 272
role in electrical membrane activity and frequency-force relations in normal, denervated and reserpine-pretreated cat heart muscle, 60
sodium fluoride and, effects of environmental lighting and chronic denervation on activation of adenyl cyclase of rat pineal gland by, 146

Organic bases, binding to kidney cortex slices, 6
Ouabain
effect on Na^+,K^+-adenosine triphosphatase from rat kidney and heart, 42
effects on cardiac Na^+,K^+-adenosine triphosphatase microsomes and mitochondria from dog and beef, 31
-induced ventricular tachycardia, reversion by LB 46, 116
Owens, M. L., *see* Sulser, F., 272

Papaverine
effect on large and small coronary vessels, 70
effect on rat myometrium, 13, 21
Parathyroid hormone-induced Ca^{45} release, from embryonic rat bone *in vitro*, inhibition by steroids of, 211
d-Penicillamine, nonsteroidal antirheumatic drug, Evans blue–carrageenan pleural effusion as a model for assay of, 199
Pentaerythritol, pentaerythritol trinitrate and, metabolism by dogs, 235
Pentaerythritol tetranitrate, effect on large and small coronary vessels, 70
Pentaerythritol trinitrate, pentaerythritol and, metabolism by dogs, 235
Pentobarbital, effects on spinal monosynaptic pathway, 283
Phenobarbital, effect on biliary flow, 218
Phentolamine, influence on negative chronotropic effect of tyramine on isolated guinea-pig atria, 290
Phenylbutazone, effect on biliary flow, 218
Physostigmine, influence on negative chronotropic effect of tyramine on isolated guinea-pig atria, 290
Pineal gland, rat, effects of environmental lighting and chronic denervation on activation of adenyl cyclase by norepinephrine and sodium fluoride, 146
Pinocytosis, mechanism of uptake of chloroquine-3-H^3 by *Plasmodium knowlesi in vitro*, 187
Plasma, horse, detection of amphetamine by gas chromatography of a halogenated derivative, 205
Plasmodium knowlesi, uptake of chloroquine-3-H^3 by, *in vitro*, 187

Polet, H. and Barr, C. F.: Uptake of chloroquine-3-H^3 by *Plasmodium knowlesi in vitro*, 187
Polymorphonuclear leukocytes, effects of caffeine on glucose metabolism of, 240
Pregnancy, in rats, alterations in kinetic constants for hepatic microsomal aniline hydroxylase and ethylmorphine N-demethylase associated with, 224
Prenylamine, effect on large and small coronary vessels, 70
Probenecid, effect on renal handling of α-methyltyrosine, 310
Propranolol, influence on negative chronotropic effect of tyramine on isolated guinea-pig atria, 290
Pulmonary artery, rabbit, effects of nicotine, dimethylphenylpiperazinium and cholinergic blocking agents at adrenergic nerve endings of, 127
Pulmonary veins, in intact dogs, direct effects of vasoactive agents on, 96
Pyruvate production, in isolated rabbit ileum, effect of ethacrynic acid on, 1

Quinidine-induced changes in excitability and contractility, factors influencing, 47

Ray, R. S., *see* Noonan, J. S., 205
Receptor(s)
  alpha and *beta* adrenergic, influence on negative chronotropic effect of tyramine on isolated guinea-pig atria, 290
  dopamine, specific, attenuation of dopamine renal and mesenteric vasodilation by haloperidol, 303
  nicotinic and muscarinic, in cardiac sympathetic ganglia of dog, 106
Reserpine
  -induced suppression of motor activity and conditioned avoidance response, effect of α-methyl dopa on, 153
  in hypothalamus of rat *in vivo*, modification by desipramine (DMI) of availability of norepinephrine released by, 272
  negative chronotropic effect of tyramine on isolated guinea-pig atria pretreated with, 290
  -pretreated, normal and denervated cat heart muscle, electrical membrane activity and frequency-force relations in, 60

Saliva, horse, detection of amphetamine by gas chromatography of a halogenated derivative, 205
Sancilio, L. F.: Evans blue–carrageenan pleural effusion as a model for the assay of nonsteroidal antirheumatic drugs, 199

CONTENTS OF VOLUME 168

No. 1, July 1969

The Effect of Ethacrynic Acid on Sodium Transport by Isolated Rabbit Ileum. R. A. Chez, E. O. Horger, III and Stanley G. Schultz 1

The Binding of Organic Bases to Kidney Cortex Slices. Robert J. McIsaac 6

Smooth Muscle Relaxants: Dissociation between Resting Membrane Potential and Resting Tension in Rat Myometrium. Jack Diamond and Jean M. Marshall 13

A Comparison of the Effects of Various Smooth Muscle Relaxants on the Electrical and Mechanical Activity of Rat Uterus. Jack Diamond and Jean M. Marshall. 21

Possible Involvement of Cardiac Na^+, K^+-Adenosine Triphosphatase in the Mechanism of Action of Cardiac Glycosides. Arnold Schwartz, Julius C. Allen and Shoichi Harigaya 31

A Possible Biochemical Explanation for the Insensitivity of the Rat to Cardiac Glycosides. Julius C. Allen and Arnold Schwartz 42

Factors Influencing Quinidine-Induced Changes in Excitability and Contractility. Barbara L. Kennedy and Theodore C. West 47

Electrical Membrane Activity and Frequency-Force Relations in Normal, Denervated and Reserpine-Pretreated Cat Heart Muscle. Bert Spilker and Peter Cervoni. 60

Effect of Nitrates and Other Coronary Dilators on Large and Small Coronary Vessels: An Hypothesis for the Mechanism of Action of Nitrates. Martin M. Winbury, Burton B. Howe and Mildred A. Hefner 70

The Direct Effects of Vasoactive Agents on Pulmonary Veins. Studies of Responses to Acetylcholine, Serotonin, Histamine and Isoproterenol in Intact Dogs. Albert L. Hyman 96

Nicotinic and Muscarinic Receptors in the Cardiac Sympathetic Ganglia of the Dog. Jerome H. Fleisch, Werner Flacke and Richard A. Gillis 106

Studies on *dl*-4-(2-Hydroxy-3-Isopropylaminopropoxy)-Indole (LB 46), a New Potent *Beta* Adrenergic Blocking Drug. Jean-François Giudicelli, Henri Schmitt and Jacques R. Boissier 116

Effects of Nicotine, Dimethylphenylpiperazinium and Cholinergic Blocking Agents at Adrenergic Nerve Endings of the Rabbit Pulmonary Artery. Ove A. Nedergaard and John A. Bevan 127

Dissociation of Catecholamine-Induced Calorigenesis from Lipolysis and Glycogenolysis in Intact Animals. Barbara L. Kennedy and Sydney Ellis 137

Effects of Environmental Lighting and Chronic Denervation on the Activation of Adenyl Cyclase of Rat Pineal Gland by Norepinephrine and Sodium Fluoride. Benjamin Weiss 146

Effect of α-Methyl Dopa on the Reserpine-Induced Suppression of Motor Activity and the Conditioned Avoidance Response. Norman J. Uretsky and Lewis S. Seiden 153

Effects of Lithium on Brain Energy Reserves and Cations *in Vivo*. Lucy J. King, Juanita L. Carl, Ellen G. Archer and Mark Castellanet 163

The Pharmacology of 2-(Ethylamino)-2-(2-Thienyl)Cyclohexanone·HCl (CI-634). Graham Chen, Charles R. Ensor and Barbara Bohner 171

Isolation of Two Different Glucuronide Metabolites of Naloxone from the Urine of Rabbit and Chicken. James M. Fujimoto 180

Uptake of Chloroquine-3-H^3 by *Plasmodium knowlesi in Vitro*. Herman Polet and Charles F. Barr 187

The Binding of Gallium by Blood Serum. Ronald E. Hartman and Raymond L. Hayes 193

Evans Blue–Carrageenan Pleural Effusion as a Model for the Assay of Nonsteroidal Antirheumatic Drugs. Lawrence F. Sancilio 199

A Method for Detecting Amphetamine Using Gas Chromatography of a Halogenated Derivative. James S. Noonan, Philip W. Murdick and Richard S. Ray 205

Erratum 210

No. 2, AUGUST 1969

Inhibition by Steroids of Parathyroid Hormone-Induced Ca^{45} Release from Embryonic Rat Bone *in Vitro*. PAULA H. STERN 211
Biliary Flow after Microsomal Enzyme Induction. CURTIS D. KLAASSEN 218
Alterations in Kinetic Constants for Hepatic Microsomal Aniline Hydroxylase and Ethylmorphine N-Demethylase Associated with Pregnancy in Rats. ANTHONY M. GUARINO, THEODORE E. GRAM, DAVID H. SCHROEDER, JACQUELINE B. CALL AND JAMES R. GILLETTE 224
Inhibition of Dopamine β-Hydroxylase by Aromatic and Alkyl Thioureas. G. A. JOHNSON, S. J. BOUKMA AND E. G. KIM 229
Metabolism of Pentaerythritol Trinitrate and Pentaerythritol by Dogs. FREDERICK J. DICARLO, MYRIAM D. MELGAR, LLOYD J. HAYNES, ROSEMARIE L. GALA AND MALCOLM C. CREW 235
The Effects of Caffeine on Glucose Metabolism of Polymorphonuclear Leukocytes. N. V. DIMITROV, J. MILLER AND S. R. ZIEGRA 240
Acquisition and Loss of Tolerance to Ethanol by the Rat. A. E. LEBLANC, H. KALANT, R. J. GIBBINS AND N. D. BERMAN 244
Drug-Test Interaction as a Factor in the Development of Tolerance to the Analgesic Effect of Morphine. W. J. ADAMS, S. Y. YEH, L. A. WOODS AND C. L. MITCHELL 251
Response of Neurogenic Amines to Aggregation and Strangers. EUGENE L. BLISS AND JANIE AILION 258
Separation of Catecholamine-Storing Synaptosomes in Different Regions of Rat Brain. ALAN I. GREEN, SOLOMON H. SNYDER AND LESLIE L. IVERSEN 264
Modification by Desipramine (DMI) of the Availability of Norepinephrine Released by Reserpine in the Hypothalamus of the Rat *in Vivo*. F. SULSER, M. L. OWENS, S. J. STRADA AND J. V. DINGELL 272
Effects of a Convulsant Barbiturate on the Spinal Monosynaptic Pathway. HALL DOWNES AND JOHN K. WILLIAMS 283
The Negative Chronotropic Effect of Tyramine on Isolated Guinea-Pig Atria. T. H. TSAI, R. L. WENDT AND W. R. MCGRATH 290
Some Aspects of the Pharmacology of Valyl[5]-β-(Pyrazolyl-3)-L-Alanyl[6]-Angiotensin II. WILLIAM E. HAGEMAN, KLAUS HOFMANN, ROBERT J. ERTEL AND JOSEPH P. BUCKLEY 295
Attenuation of Dopamine Renal and Mesenteric Vasodilation by Haloperidol: Evidence for a Specific Dopamine Receptor. BILLY K. YEH, JOHN L. MCNAY AND LEON I. GOLDBERG 303
The Renal Handling of α-Methyltyrosine. JERRY B. HOOK AND KENNETH E. MOORE 310
Structure-Activity Relationships of N-Alkyl and Heterocyclic Analogs of Hemicholinium-3. F. W. BENZ AND J. P. LONG 315
Index, Volume 168, July–August 1969 323

INDEX

Volume 169, September–October 1969

Abdominal stretching, in mice, acetic acid-induced, agonist and antagonist interactions of opioids on, 29

Acetic acid-induced abdominal stretching in mice, agonist and antagonist interactions of opioids on, 29

Acetyl-β-methylcholine, effect on differences in chronotropic and inotropic response of rat atrium, 109

Acetylcholine
- effect on adrenergic and cholinergic neurons in cat stellate ganglion, 211
- effect on differences in chronotropic and inotropic response of rat atrium, 109
- intranodal, response after nicotine injected into atrioventricular node artery of dog, 298
- levels in brain, inhibition of tail-flick reflex in mice, 23

Adenosine 3′,5′-monophosphate, cardiac, dissociation of increased formation from positive inotropic effect of norepinephrine, 315

Adenyl cyclase, mammalian, inhibitory effects of alloxan on, 80

Adrenal tyrosine hydroxylase, trans-synaptic induction of, 249

Adrenergic blockade, *alpha*, influence on bradycardic effects of ST 155, 120

Adrenergic neurons, and cholinergic, in cat stellate ganglion, a comparison of sensitivity to chemical stimuli of, 211

Adrenergic receptors, *alpha*, histaminergic and, of rabbit aorta, effect of calcium depletion on the combination of agonists and competitive antagonists with, 255

Agonist(s)
- antagonist and, interactions of opioids on acetic acid-induced abdominal stretching in mice, 29
- competitive antagonists and, with *alpha* adrenergic and histaminergic receptors of rabbit aorta, effect of calcium depletion on the combination of, 255

Aiken, J. W. and Reit, E.: A comparison of the sensitivity to chemical stimuli of adrenergic and cholinergic neurons in the cat stellate ganglion, 211

Alary, J.-G. and Brodeur, J.: Studies on the mechanism of phenobarbital-induced protection against parathion in adult female rats, 159

Alloxan, inhibitory effects on mammalian adenyl cyclase, 80

Alpha adrenergic blockade, influence on bradycardic effects of ST 155, 120

Alpha adrenergic receptors, histaminergic and, of rabbit aorta, effect of calcium depletion on the combination of agonists and competitive antagonists with, 255

p-Aminosalicylic acid, role of lymphatics in intestinal absorption and distribution of, 142

d-Amphetamine, impairment of delayed matching performance in monkeys by, 1

Analgesics
- narcotic-antagonist, interactions with cholinergic systems, 17
- narcotic, effects on inhibition of tail-flick reflex and levels of acetylcholine in mice, 23

Anders, M. W., *see* Furner, R. L., 153

Anesthesia, general, effect on chemical composition of blood plasma of normal rabbits, 277

Anesthetics, local, methylxanthines and, effect on fragmented sarcoplasmic reticulum, 308

Angiotensin, effect on adrenergic and cholinergic neurons in cat stellate ganglion, 211

Antagonism
- by xylamidine tosylate, behavioral effects of N,N-diethyltryptamine with an absence of, 7
- of morphine by nalorphine and naloxone, quantitative studies of, 39

Antagonist(s)
- agonist and, interactions of opioids on acetic acid-induced abdominal stretching in mice, 29
- competitive, agonists and, with *alpha* adrenergic and histaminergic receptors of rabbit aorta, effect of calcium depletion on the combination of, 255
- narcotic, effects on inhibition of tail-flick reflex and levels of acetylcholine in mice, 23

Aorta, rabbit, effect of calcium depletion on the combination of agonists and competitive antagonists with *alpha* adrenergic and histaminergic receptors of, 255

Atrioventricular node, in rabbits, action of ouabain on, 287

Atrioventricular node artery, of dog, effects of nicotine injected into, 298

Atrium
- rat, differences in chronotropic and inotropic response to choline esters, cholinesterase inhibitors and certain blocking agents, 109
- rat, electrical field-stimulated release of norepinephrine-H^3 from, effects of ions and drugs, 229

Atropine
- effect on differences in chronotropic and inotropic response of rat atrium, 109

influence on bradycardic effects of ST 155, 120
intranodal, influence on effects of nicotine injected into atrioventricular node artery of dog, 298
Autonomic nerves, effect of digitalis on excitability of, 95
Axelrod, J.

Bradycardic effects, of ST 155 [2-(2,6-dichlorophenylamino)-2-imidazoline HCl] in anesthetized dog, an investigation into, 120
Bradykinin
effect on adrenergic and cholinergic neurons in cat stallate ganglion, 211
on isolated guinea-pig tracheal muscle, 264
Brain, levels of acetylcholine in, inhibition of tail-flick reflex in mice, 23
Bretylium, effect on electrical field stimulation-induced release of norepinephrine-H^3, 229
Broder, L. E. and Oppelt, W. W.: Effect of benzolamide on cerebrospinal fluid formation, 271
Brodeur, J., *see* Alary, J.-G., 159
Butyrylcholine, effect on differences in chronotropic and inotropic response of rat atrium, 109

Ca^{45}, movements in intestinal smooth muscle, contraction, calcium distribution and, effects of lanthanum on, 46
Caffeine, effect on calcium transport, 308
Calcium
accumulation by fragmented sarcoplasmic reticulum, effect of heat denaturation, methylxanthines and local anesthetics, 308
depletion, effect on the combination of agonists and competitive antagonists with *alpha* adrenergic and histaminergic receptors of rabbit aorta, 255
distribution in intestinal smooth muscle, contraction, Ca^{45} movements and, effects of lanthanum on, 46
effect on electrical field stimulation-induced release of norepinephrine-H^3, 229
Carbonic anhydrase inhibitor, benzolamide, effect on cerebrospinal fluid formation, 271
Cardiac adenosine 3′,5′-monophosphate, dissociation of increased formation from positive inotropic effect of norepinephrine, 315
Central nervous system, effects of procaine, pentobarbital and halothane on synaptic transmission in, 185
Cerebrospinal fluid formation, effect of benzolamide on, 271
Cesium ions, enhancement of ganglionic hyperpolarization induced by dimethylphenylpiperazinium (DMPP) and repetitive preganglionic stimulation by, 201
Chemical stimuli, of adrenergic and cholinergic neurons in cat stellate ganglion, a comparison of sensitivity to, 211
Choline esters, cholinesterase inhibitors, certain blocking agents and, differences in chronotropic and inotropic response of rat atrium to, 109
Cholinergic drugs, effects on inhibition of tail-flick reflex and levels of acetylcholine in mice, 23
Cholinergic neurons, adrenergic and, in cat stellate ganglion, a comparison of sensitivity to chemical stimuli of, 211
Cholinergic systems, interactions with narcotic-antagonist analgesics, 17
Cholinesterase inhibitors, choline esters, certain blocking agents and, differences in chronotropic and inotropic response of rat atrium to, 109
Chronotropic response, inotropic and, of rat atrium to choline esters, cholinesterase inhibitors and certain blocking agents, differences in, 109
Cinanserin HCl, antagonist action on behavioral effects of N,N-diethyltryptamine, 5-hydroxytryptamine and 5-hydroxytryptophan, 7
Circulation, splanchnic, effects of ouabain on, 321
Cocaine
effect on accumulation of C^{14}-serotonin in guinea-pig vas deferens, 68
effect on uptake and disposition of *dl*-norepinephrine-H^3 in perfused rat lung, 237

CONTENTS OF VOLUME 169

No. 1, September 1969

Impairment by *d*-Amphetamine of Delayed Matching Performance in Monkeys. Stanley D. Glick and Murray E. Jarvik 1

Behavioral Effects of N,N-Diethyltryptamine: Absence of Antagonism by Xylamidine Tosylate. J. C. Winter 7

Narcotic-Antagonist Analgesics: Interactions with Cholinergic Systems. Louis S. Harris, William L. Dewey, John F. Howes, James S. Kennedy and Harry Pars 17

Brain Acetylcholine Levels and Inhibition of the Tail-Flick Reflex in Mice. John F. Howes, Louis S. Harris, William L. Dewey and Carol A. Voyda 23

Agonist and Antagonist Interactions of Opioids on Acetic Acid-Induced Abdominal Stretching in Mice. Robert I. Taber, Dorothy D. Greenhouse, Jill K. Rendell and Samuel Irwin 29

Quantitative Studies of the Antagonism of Morphine by Nalorphine and Naloxone. A. E. Takemori, Harvey J. Kupferberg and Jack W. Miller 39

Effects of Lanthanum on Contraction, Calcium Distribution and Ca^{45} Movements in Intestinal Smooth Muscle. George B. Weiss and Frank R. Goodman 46

Effects of Sodium-Deficient Medium and Ouabain on Potassium Exchange in Taenia Coli. Madge A. Pfaffman and William C. Holland 56

The Effects of Theophylline, Diazoxide and Imidazole on Isoproterenol-Induced Inhibition of the Rabbit Ileum. Byron E. Wilkenfeld and Bernard Levy 61

The Accumulation of C^{14}-Serotonin in the Guinea-Pig Vas Deferens. Nguyen B. Thoa, Donald Eccleston and Julius Axelrod 68

Increase in Tyrosine Hydroxylase Activity after Reserpine Administration. R. A. Mueller, H. Thoenen and J. Axelrod 74

Inhibitory Effects of Alloxan on Mammalian Adenyl Cyclase. K. L. Cohen and M. W. Bitensky 80

The Inhibition of Norepinephrine-Stimulated Lipolysis by Acute Hypoxia. David Baum 87

The Effect of Digitalis on the Excitability of Autonomic Nerves. Robert E. Ten Eick and Brian F. Hoffman 95

Differences in the Chronotropic and Inotropic Response of the Rat Atrium to Choline Esters, Cholinesterase Inhibitors and Certain Blocking Agents. Carmel Montgomery Roberts and Jelena Konjovic 109

An Investigation into the Bradycardic Effects of ST 155 [2-(2,6-Dichlorophenylamino)-2-Imidazoline HCl] in the Anesthetized Dog. R. D. Robson, H. R. Kaplan and Susanne Laforce 120

Inhibition of Tissue Histamine Formation by Decaborane. Miguel A. Medina, Juanita H. Landez and Lloyd L. Foster 132

Effect of Steroid Hormones on the Parathyroid Hormone Dose-Response Curve. L. E. Magargal, H. Magargal and M. M. Reidenberg 138

Role of the Lymphatics in the Intestinal Absorption and Distribution of Drugs. Thomas J. De Marco and Ruth R. Levine 142

No. 2, October 1969

Stereoselective Metabolism of the Enantiomers of Hexobarbital. R. L. Furner, J. S. McCarthy, R. E. Stitzel and M. W. Anders 153

Studies on the Mechanism of Phenobarbital-Induced Protection against Parathion in Adult Female Rats. Jean-Guy Alary and Jules Brodeur 159

The Effect of Tolerance and Withdrawal on the *in Vivo* Metabolism of N-C^{14}-Methyl-Dihydromorphine in the Rat. S. Y. Yeh and L. A. Woods 168

Tolerance to Opioid Narcotics. I. Tolerance to the "Running Fit" Caused by Levorphanol in the Mouse. Avram Goldstein and Patricia Sheehan 175

Effects of Procaine, Pentobarbital and Halothane on Synaptic Transmission in the Central Nervous System. ANIBAL GALINDO 185
Tension-Response Relationships in the Intact Nictitating Membrane of the Pithed Cat. DAVID P. WESTFALL, PAUL E. GILBERT AND WILLIAM W. FLEMING 196
Enhancement by Cesium Ions of Ganglionic Hyperpolarization Induced by Dimethylphenylpiperazinium (DMPP) and Repetitive Preganglionic Stimulation. JOHN C. HANCOCK AND ROBERT L. VOLLE 201
A Comparison of the Sensitivity to Chemical Stimuli of Adrenergic and Cholinergic Neurons in the Cat Stellate Ganglion. JAMES W. AIKEN AND ERNEST REIT 211
Dependence of Tetrodotoxin Blockage of Nerve Membrane Conductance on External pH. TOSHIO NARAHASHI, JOHN W. MOORE AND DONALD T. FRAZIER 224
Electrical Field-Stimulated Release of Norepinephrine-H^3 from Rat Atrium: Effects of Ions and Drugs. RICHARD I. KATZ AND IRWIN J. KOPIN 229
The Uptake and Disposition of *dl*-Norepinephrine in Perfused Rat Lung. JOHN HUGHES, C. N. GILLIS AND F. E. BLOOM 237
Trans-Synaptic Induction of Adrenal Tyrosine Hydroxylase. H. THOENEN, R. A. MUELLER AND J. AXELROD 249
The Effect of Calcium Depletion on the Combination of Agonists and Competitive Antagonists with *Alpha* Adrenergic and Histaminergic Receptors of Rabbit Aorta. RONALD R. TUTTLE AND NEIL C. MORAN 255
Bradykinin on Isolated Guinea-Pig Tracheal Muscle. LOUIS C. IORIO AND JAY W. CONSTANTINE 264
Effect of Benzolamide on Cerebrospinal Fluid Formation. L. E. BRODER AND W. W. OPPELT 271
The Effect of General Anesthesia on the Chemical Composition of Blood Plasma of Normal Rabbits. LASZLO Z. BITO AND KENNETH E. EAKINS 277
The Action of Ouabain on the Function of the Atrioventricular Node in Rabbits. NOBORU TODA AND THEODORE C. WEST 287
Effects of Nicotine Injected into the Atrioventricular Node Artery of the Dog. P. GAUTHIER AND R. A. NADEAU 298
The Effect of Methylxanthines and Local Anesthetics on Fragmented Sarcoplasmic Reticulum. PHILIP N. JOHNSON AND G. INESI 308
Dissociation of the Increased Formation of Cardiac Adenosine 3′,5′-Monophosphate from the Positive Inotropic Effect of Norepinephrine. JOSEPH SHANFELD, ALAN FRAZER AND MARILYN E. HESS 315
Effects of Ouabain on the Splanchnic Circulation. LURA ANN HARRISON, JON BLASCHKE, ROBERT S. PHILLIPS, WILLIAM E. PRICE, MARION DEV. COTTEN AND EUGENE D. JACOBSON 321
Index, Volume 169, September–October 1969 329

INDEX

Volume 170, November–December 1969

Acetylcholine
and epinephrine, interactions on contractility, glycogen and phosphorylase activity of isolated mammalian hearts, 27
influence on sinus rate, effect of tetrodotoxin, 91
injection in euthyroid and hyperthyroid rats, cardiovascular and biochemical effects of vagal stimulation and, 1
potassium, carbachol, histamine and, effects on Na^{22} movements in ileal smooth muscle, 123
Adenosine monophosphate
3′,5′-cyclic, effect on short-circuit current, protein-bound disulfide and sulfhydryl groups in toad bladder epithelium, 132
3′,5′-cyclic, rat heart, phosphorylase *b* kinase, phosphorylase *a* activity and, effects of thyroxine on, 10
Adenosine triphosphatase, sodium- and potassium-activated, from hearts of several mammalian species, effect of ouabain on, 17
Adrenergic blocking activity, *beta*, of ICI 50,172, 72
Adrenergic blocking agent(s)
alpha and *beta*, combinations in isolated guinea-pig atria, 262
beta, ICI 50,172, antiarrhythmic actions in dog heart-lung preparation, 79
beta, MJ-1999, influence on metabolic effects of epinephrine in hyperthyroid rats, 10
Adrenergic nerve stimulation, tyramine, mephentermine, *d*-amphetamine and, effects of chronic pretreatment with pargyline upon responses of atrial pacemaker and left atrial strips of guinea pigs to, 97
Adrenergic neuron amine carrier, sodium dependency of, 239
Adrenergic receptor, *alpha* and *beta*, stimulation on taenia coli, separation of effects of, 272
Agonists
cholinergic, differential effects on self-stimulation and escape behavior, 157
partial, affinity for receptors, on the measurement of, 117
Akera, T., Larsen, F. S. and Brody, T. M.: The effect of ouabain on sodium- and potassium-activated adenosine triphosphatase from the hearts of several mammalian species, 17
Akester, J. M. and Brody, M. J.: Mechanism of vascular resistance changes produced in skin and muscle by halothane, 287
Aldosterone, effect on short-circuit current, protein-bound disulfide and sulfhydryl groups in toad bladder epithelium, 132
Alpha adrenergic blockers, *beta* and, combinations in isolated guinea-pig atria, 262
Alpha adrenergic receptor, *beta* and, stimulation on taenia coli, separation of effects of, 272
Amine carrier, neuron, adrenergic, sodium dependency of, 239
Aminophylline
effect on isolated taenia coli from guinea pigs, 272
effect on short-circuit current, protein-bound disulfide and sulfhydryl groups in toad bladder epithelium, 132
Amphetamine
d-, tyramine, mephentermine, adrenergic nerve stimulation and, effects of chronic pretreatment with pargyline upon responses of atrial pacemaker and left atrial strips of guinea pigs to, 97
d- and *l*-, uptake into homogenates of rat brain, stereospecificity in different areas, 221
Amphotericin B, effect on short-circuit current, protein-bound disulfide and sulfhydryl groups in toad bladder epithelium, 132
Analgesic drugs, effect on incidence of reversible lens opacities in solitary and aggregated mice, 168
Anesthesia, in man, effect of hexafluorenium on neuromuscular refractory period, 153
Angiotensin
blocking actions of guancydine, 334
response of skin and muscle vessels to, after administration of halothane, 287
Angiotensin I and II, simultaneous assay and determination of converting enzyme activity of, 326
Antagonists, cholinergic, differential effects on self-stimulation and escape behavior, 157
Antiarrhythmic actions, of 4(2-hydroxy-3-isopropylaminopropoxy)-acetanilide (ICI 50,172) in dog heart-lung preparation, 79
Antidiuretic hormones, effect on short-circuit current, protein-bound disulfide and sulfhydryl groups in toad bladder epithelium, 132
Antonaccio, M. J. and Smith, C. B.: Effects of chronic pretreatment with pargyline upon responses of the atrial pacemaker and of left atrial strips of guinea pigs to tyramine, mephentermine, *d*-amphetamine and adrenergic nerve stimulation, 97

Aortic strips, some drug effects on calcium movements in, 303
Arecoline hydrochloride, cholinergic agonist, differential effects on self-stimulation and escape behavior, 157
Arrhythmias, cellular, digoxin-induced, in cultured embryonic heart cells, effect of diphenylhydantoin on, 84
Arterial potassium, epinephrine-induced changes in cardiac rhythm and, in dogs anesthetized with cyclopropane, effect of propranolol on, 281
Artery, sinus node, of vagotomized dog, administration of tetrodotoxin, 91
Atherosclerosis, experimental, hypercholesteremia and, effect of N-γ-phenylpropyl-N-benzyloxy acetamide (W-1372) on, 371
Atria, guinea-pig, isolated, combinations of *alpha* and *beta* adrenergic blockers in, 262
Atrium, pacemaker and left atrial strips of guinea pigs, responses to tyramine, mephentermine, *d*-amphetamine and adrenergic nerve stimulation, effects of chronic pretreatment with pargyline upon, 97
Atropine, disposition under conditions of hypothermia in isolated, perfused rat liver, compared with pentobarbital-2-C^{14}, 145
Axelrod, J., *see* Molinoff, P. B., 253

Baggett, B., *see* Palmer, K. H., 355
Barrett, J. D. and Sambhi, M. P.: Simultaneous assay of angiotensin I and II and determination of converting enzyme activity, 326
Barrett, J. P., Ingenito, A. J. and Procita, L.: A brain perfusion technique adapted for the study of drugs which may affect the peripheral circulation through a central action, 199
Barrett, J. P., *see* Ingenito, A. J., 210
Bass, P., *see* Weisbrodt, N. W., 272
Behavior, self-stimulation and escape, differential effects of cholinergic agonists on, 157
Berger, F. M., Douglas, J. F., Ludwig, B. J. and Margolin, S.: The effect of N-γ-phenylpropyl-N-benzyloxy acetamide (W-1372) on experimental atherosclerosis and hypercholesteremia, 371
Beta adrenergic blocking activity, of ICI 50,172, 72
Beta adrenergic blocking agent(s)
  alpha and, combinations in isolated guinea-pig atria, 262
  ICI 50,172, antiarrhythmic actions in dog heart-lung preparation, 79
  MJ-1999, influence on metabolic effects of epinephrine in hyperthyroid rats, 10
Beta adrenergic receptor, *alpha* and, stimulation on taenia coli, separation of effects of, 272
Biliary excretion, uptake, metabolism and, of pentobarbital-2-C^{14} by isolated, perfused rat liver in hypothermia and euthermia, 145
Blockade, of cardiac effects of isoproterenol by 4-(2-hydroxy-3-isopropylaminopropoxy)-acetanilide (ICI 50,172), 72
Blood cholesterol, effect of W-1372 on, 371
Blukoo-Allotey, J. A., Vincent, N. H. and Ellis, S.: Interactions of acetylcholine and epinephrine on contractility, glycogen and phosphorylase activity of isolated mammalian hearts, 27
Boyd, E. S., *see* Hurlbrink, E. E., 181
Brain
  cat, *in situ*, isolated, centrally mediated peripheral hypotensive effects of reserpine and hydralazine when perfused through, 210
  perfusion technique adapted for study of drugs which may affect peripheral circulation through a central action, 199
  rat, catecholamine uptake by synaptosomes in homogenates of, stereospecificity in different areas, 221
  rat, *in vivo* measurement of 5-hydroxytryptamine turnover rate in, conversion of C^{14}-tryptophan to C^{14}-5-hydroxytryptamine, 232
Brody, M. J., *see* Akester, J. M., 287
Brody, T. M., *see* Akera, T., 17

Calcium
  in subcellular fractions of cardiac muscle, effect of ouabain on, 311
  movements in aortic strips, some drug effects on, 303
Carbachol
  potassium, acetylcholine, histamine and, effects on Na^{22} movements in ileal smooth muscle, 123
  strong agonist, affinity for receptors, compared to partial agonists, 117
Cardiac effects, peripheral and, of dopamine infusion in endotoxin shock in the dog, 108
Cardiac muscle
  effect of dipyridamole on metabolism of, 37
  effect of ouabain on calcium in subcellular fractions of, 311
Cardiac rhythm, epinephrine-induced changes in, arterial potassium and, in dogs anesthetized with cyclopropane, effect of propranolol on, 281
Cardiotoxic responses, pressor and, to ouabain, depression by reflexes of, 294
Catecholamine(s)
  effects on isolated taenia coli from guinea pigs, 272
  metabolic effects of epinephrine, influence of MJ-1999 on, 10
  release from nerve endings, mechanism of sym-

pathomimetic action of cyclohexylamine and hexylamine, 62
uptake by synaptosomes in homogenates of rat brain, stereospecificity in different areas, 221
Cells, heart, embryonic, cultured, action of diphenylhydantoin on rhythmicity and contractility of, 84
Chemical sympathectomy, of cat with 6-hydroxydopamine, 50
Chiba, S., *see* Hashimoto, K., 91
Chipperfield, D. and Nayler, W. G.: The effect of ouabain on calcium in subcellular fractions of cardiac muscle, 311
Cholesterol, blood and serum, effect of W-1372 on, 371
Cholinergic agonists and antagonists, differential effects on self-stimulation and escape behavior, 157
Circulation, peripheral, brain perfusion technique adapted for study of drugs which may affect through a central action, 199
Cocaine, effect on mechanism of action of guanethidine on isolated mammalian heart, 44
Contractility
glycogen, phosphorylase activity and, of isolated mammalian hearts, interactions of acetylcholine and epinephrine on, 27
metabolism of cardiac muscle, effect of dipyridamole on, 37
rhythmicity and, of cultured embryonic heart cells, action of diphenylhydantoin on, 84
Costa, E., *see* Lin, R. C., 232
Coyle, J. T. and Snyder, S. H.: Catecholamine uptake by synaptosomes in homogenates of rat brain: Stereospecificity in different areas, 221
Cummings, J. R., Welter, A. N., Grace, J. L., Jr. and Gray, W. D.: Angiotensin blocking actions of guancydine, 334
Cyclamate, metabolite of, mechanism of sympathomimetic action of, 62
Cyclohexylamine, hexylamine and, mechanism of sympathomimetic action of, release of catecholamines from nerve endings, 62
Cyclopropane, effect of propranolol on epinephrine-induced changes in cardiac rhythm and arterial potassium in dogs anesthetized with, 281

DDD, [1,1-dichloro-2,2-bis(*p*-chlorophenyl)ethane], metabolite of DDT, studies on relative insensitivity of immature rat to neurotoxic effects of, 173
DDE, [1,1-dichloro-2,2-bis(*p*-chlorophenyl)ethylene], metabolite of DDT, studies on relative insensitivity of immature rat to neurotoxic effects of, 173
DDT, [1,1,1-trichloro-2,2-bis(*p*-chlorophenyl)-ethane], studies on relative insensitivity of immature rat to neurotoxic effects of, 173
Dibenamine, influence on *beta* blockade in isolated guinea-pig atria, 262
Digitoxin, effect on ouabain-H^3 accumulation by isolated guinea-pig heart, 318
Digoxin, cellular arrhythmias induced by, in cultured embryonic heart cells, effect of diphenylhydantoin on, 84
Dimethyl sulfoxide, repeated dermal applications to dogs and monkeys, ocular effects of, 364
Diphenylhydantoin, action on rhythmicity and contractility of cultured embryonic heart cells, 84
Dipyridamole, effect on metabolism of cardiac muscle, 37
Dissociation constants, for drug-receptor reaction between muscarinic receptors and pilocarpine measured in smooth muscle of guinea-pig ileum, 117
Disulfide groups, protein-bound, sulfhydryl groups and, in toad bladder epithelium, relation of changes in sodium transport to, 132
Disulfiram, impairment of drug metabolism by rat liver microsomes, 347
Domino, E. F.,
see Hoffman, J. S., 190
see Olds, M. E., 157
Dopa-H^3, tyrosine-C^{14} and, rate of synthesis of labeled norepinephrine in rat heart from, after administration of α-methyldopa, metaraminol or octopamine, 246
Dopamine, infusion in endotoxin shock in the dog, cardiac and peripheral effects of, 108
H^3-Dopamine, uptake into homogenates of rat brain, stereospecificity in different areas, 221

Embryonic heart cells, cultured, action of diphenylhydantoin on rhythmicity and contractility of, 84
Endotoxin shock, in the dog, cardiac and peripheral effects of dopamine infusion in, 108
Enzymatic assay, for octopamine and other β-hydroxylated phenylethylamines, 253

Enzyme activity, converting, simultaneous assay of angiotensin I and II and determination of, 326
Epinephrine
acetylcholine and, interactions on contractility, glycogen and phosphorylase activity of isolated mammalian hearts, 27
acute injection of, effects on rat heart adenosine 3′,5′-monophosphate, phosphorylase *b* kinase and phosphorylase *a* activity, 10
changes induced by, in cardiac rhythm and arterial potassium in dogs anesthetized with cyclopropane, effect of propranolol on, 281
effect of guancydine on vasopressor response to infusions of, 334
effect on isolated taenia coli from guinea pigs, 272
ventricular tachycardia induced by, in dog heart-lung preparation, antiarrhythmic actions of ICI 50, 172, 79
Epithelium, toad bladder, relation of changes in sodium transport to protein-bound disulfide and sulfhydryl groups in, 132

McN-A343, ganglion stimulant, effect on myocardial phosphorylase *a* activity caused by vagal stimulation in euthyroid and hyperthyroid rats, 1
Mecamylamine hydrochloride, cholinergic antagonist, differential effects on self-stimulation and escape behavior, 157
Mephentermine, tyramine, *d*-amphetamine, adrenergic nerve stimulation and, effects of chronic pretreatment with pargyline upon responses of atrial pacemaker and left atrial strips of guinea pigs to, 97
Metabolism
  drug, by rat liver microsomes, disulfiram impairment of, 347
  hydroxyproline, in dogs and monkeys, effects of repeated dermal applications of dimethyl sulfoxide on, 364
  in hyperthyroid rats, affected by epinephrine, influence of MJ-1999 on, 10
  of cardiac muscle, effect of dipyridamole on, 37
  of *R*(+)- and *RS*-pentobarbital, 355
  uptake, biliary excretion and, of pentobarbital-2-C^{14} by isolated, perfused rat liver in hypothermia and euthermia, 145
Metaraminol
  l- and *d*-, sodium-dependent uptake by adrenergic neurons of rabbit heart slices, 239
  α-methyldopa, octopamine or, rate of synthesis of labeled norepinephrine in rat heart from tyrosine-C^{14} and dopa-H^3 after administration of, 246
Methadone, lenticular action of, in solitary and aggregated mice, 168
(±)-Methoxamine, effect of phentolamine on *beta* blockade in isolated guinea-pig atria, 262
Methscopolamine bromide, cholinergic antagonist, differential effects on self-stimulation and escape behavior, 157
α-Methyldopa, metaraminol, octopamine or, rate of synthesis of labeled norepinephrine in rat heart from tyrosine-C^{14} and dopa-H^3 after administration of, 246
Microsomes, liver, rat, disulfiram impairment of drug metabolism by, 347
MJ-1999, *beta* adrenergic blocking drug, influence on metabolic effects of epinephrine in hyperthyroid rats, 10
Molinoff, P. B., Landsberg, L. and Axelrod, J.: An enzymatic assay for octopamine and other β-hydroxylated phenylethylamines, 253
Murphy, Q. R., *see* Gutgesell, H. P., 281
Muscarinic receptors, pilocarpine and, dissociation constants for drug-receptor reaction between, measurement in smooth muscle of guinea-pig ileum, 117
Muscle
  cardiac, effect of dipyridamole on metabolism of, 37
  cardiac, effect of ouabain on calcium in subcellular fractions of, 311
  skin and, mechanism of vascular resistance changes produced by halothane in, 287
  smooth, ileal, effects of potassium, acetylcholine, carbachol and histamine on Na^{22} movements in, 123
  smooth, of guinea-pig ileum, dissociation constants for drug-receptor reaction between muscarinic receptors and pilocarpine measured in, 117
  smooth, taenia coli, separation of effects of *alpha* and *beta* adrenergic receptor stimulation on, 272
Muskus, A. J., *see* Pluchino, S., 44

Nayler, W. G., *see* Chipperfield, D., 311
Neff, N. H., *see* Lin, R. C., 232
Neostigmine hydrobromide, cholinergic agonist, differential effects on self-stimulation and escape behavior, 157
Nerve, vagus, stimulation of, cardiovascular and biochemical effects in euthyroid and hyperthyroid rats, 1
Nerve endings, release of catecholamines from, mechanism of sympathomimetic action of cyclohexylamine and hexylamine, 62
Nerve stimulation
  adrenergic, tyramine, mephentermine, *d*-amphetamine and, effects of chronic pretreatment with pargyline upon responses of atrial pacemaker and left atrial strips of guinea pigs to, 97
  sympathetic, effects of, 6-hydroxydopamine-induced alterations of, 50
  sympathetic, response of skin and muscle vessels to, after administration of halothane, 287
Neural excitation, by use of tetrodotoxin, pharmacologic isolation of sinoatrial activity from effects of neural excitation by, 91
Neuromuscular refractory period, of anesthetized man, effect of hexafluorenium on, 153
Neuron amine carrier, adrenergic, sodium dependency of, 239

Neurotoxic effects, of 1,1,1-trichloro-2,2-bis(*p*-chlorophenyl)ethane (DDT), studies on relative insensitivity of immature rat to, 173
Ngai, S. H., *see* Lin, R. C., 232
Nicotine tartrate, cholinergic agonist, differential effects on self-stimulation and escape behavior, 157
Norepinephrine
drug-calcium effects in aortic strips, 303
effect of guancydine on vasopressor response to infusions of, 334
effect on isolated taenia coli from guinea pigs, 272
influence on sinus rate, effect of tetrodotoxin, 91
response of isolated left atrial strips or atrial pacemaker of guinea pigs to, effect of pretreatment with pargyline, 97
response of skin and muscle vessels to, after administration of halothane, 287
sensitivity to, 6-hydroxydopamine-induced alterations of, 50
synthesis, effect of false transmitters on, 246
dl-H³-Norepinephrine, uptake into homogenates of rat brain, stereospecificity in different areas, 221

Octopamine
and other β-hydroxylated phenylethylamines, enzymatic assay for, 253
α-methyldopa, metaraminol or, rate of synthesis of labeled norepinephrine in rat heart from tyrosine-C¹⁴ and dopa-H³ after administration of, 246
Olds, M. E. and Domino, E. F.: Differential effects of cholinergic agonists on self-stimulation and escape behavior, 157
Opacities, lens, reversible, in solitary and aggregated mice, factors influencing the incidence of, 168
Optical isomers, reserpine- and sodium-dependent amine transport, 239
Ouabain
depression by reflexes of pressor and cardiotoxic responses to, 294
effect on calcium in subcellular fractions of cardiac muscle, 311
effect on sodium- and potassium-activated adenosine triphosphatase from hearts of several mammalian species, 17
ventricular tachycardia induced by, in dog heart-lung preparation, antiarrhythmic actions of ICI 50,172, 79
Ouabain-H³, accumulation by isolated guinea-pig heart, factors that regulate, 318
Oxygen consumption, metabolism of cardiac muscle, effect of dipyridamole on, 37

Pacemaker, atrial, left atrial strips of guinea pigs and, responses to tyramine, mephentermine, *d*-amphetamine and adrenergic nerve stimulation, effects of chronic pretreatment with pargyline upon, 97
Palmer, K. H., Fowler, M. S., Wall, M. E., Rhodes, L. S., Waddell, W. J. and Baggett, B.: The metabolism of *R*(+)- and *RS*-pentobarbital, 355

Pargyline, chronic pretreatment with, effects upon responses of atrial pacemaker and left atrial strips of guinea pigs to tyramine, mephentermine, *d*-amphetamine and adrenergic nerve stimulation, 97
Patil, P. N., *see* Krell, R. D., 262
Pentobarbital
R(+)- and *RS*-, metabolism of, 355
strychnine and, some effects on transmission through ventrobasal complex of cat thalamus, 181
Pentobarbital-2-C¹⁴, uptake, metabolism and biliary excretion of, by isolated, perfused rat liver in hypothermia and euthermia, 145
Peripheral circulation, brain perfusion technique adapted for study of drugs which may affect through a central action, 199
Pessah, N., *see* Farah, A., 132
Phentolamine, influence on *beta* blockade in isolated guinea-pig atria, 262
Phenylethanolamine, octopamine and, enzymatic assay for, 253
Phenylethylamines, β-hydroxylated, other, enzymatic assay for octopamine and, 253
Phosphate, energy-rich, metabolism of cardiac muscle, effect of dipyridamole on, 37
Phospholipids, effect of W-1372 on, 371
Phosphorylase activity, contractility, glycogen and, of isolated mammalian hearts, interactions of acetylcholine and epinephrine on, 27
Phosphorylase *a* activity
cardiac, in euthyroid and hyperthyroid rats, effects of vagal stimulation and acetylcholine on, 1
rat heart, adenosine 3′,5′-monophosphate, phosphorylase *b* kinase and, effects of thyroxine on, 10
Phosphorylase *b* kinase, rat heart, adenosine 3′,5′-monophosphate, phosphorylase *a* activity and, effects of thyroxine on, 10
Physostigmine salicylate, cholinergic agonist, differential effects on self-stimulation and escape behavior, 157
Pilocarpine, muscarinic receptors and, dissociation constants for drug-receptor reaction between, measurement in smooth muscle of guinea-pig ileum, 117

CONTENTS OF VOLUME 170

No. 1, November 1969

Parasympathetic Responses in Hyperthyroid Rats. Alan Frazer and Marilyn E. Hess 1

The Effects of Thyroxine on Rat Heart Adenosine 3′,5′-Monophosphate, Phosphorylase *b* Kinase and Phosphorylase *a* Activity. Alan Frazer, Marilyn E. Hess and Joseph Shanfeld 10

The Effect of Ouabain on Sodium- and Potassium-Activated Adenosine Triphosphatase from the Hearts of Several Mammalian Species. Tai Akera, Fran S. Larsen and Theodore M. Brody 17

Interactions of Acetylcholine and Epinephrine on Contractility, Glycogen and Phosphorylase Activity of Isolated Mammalian Hearts. Jacob A. Blukoo-Allotey, Norma H. Vincent and Sidney Ellis 27

The Effect of Dipyridamole on the Metabolism of Cardiac Muscle. Dai Hyon Yu and M. I. Gluckman 37

The Mechanism of Action of Guanethidine on the Isolated Mammalian Heart. S. Pluchino, A. J. Muskus and R. Pluchino 44

Chemical Sympathectomy of the Cat with 6-Hydroxydopamine. G. Haeusler, W. Haefely and H. Thoenen 50

Mechanism of the Sympathomimetic Action of Cyclohexylamine and Hexylamine: Release of Catecholamines from Nerve Endings. Andrew S. Wechsler, Stephen E. Epstein and Gerald Glick 62

Blockade of Cardiac Effects of Isoproterenol by 4-(2-Hydroxy-3-Isopropylaminopropoxy)-Acetanilide (ICI 50,172). Pitambar Somani and Atul R. Laddu 72

Antiarrhythmic Actions of 4-(2-Hydroxy-3-Isopropylaminopropoxy)-Acetanilide (ICI 50,172) in the Dog Heart-Lung Preparation. Atul R. Laddu and Pitambar Somani 79

Action of Diphenylhydantoin on Rhythmicity and Contractility of Cultured Embryonic Heart Cells. Morris Kleinfeld, Otto Schade and Frances Gruen 84

Pharmacologic Isolation of Sinoatrial Activity from Effects of Neural Excitation by Use of Tetrodotoxin. Koroku Hashimoto and Shigetoshi Chiba 91

Effects of Chronic Pretreatment with Pargyline upon Responses of the Atrial Pacemaker and of Left Atrial Strips of Guinea Pigs to Tyramine, Mephentermine, *d*-Amphetamine and Adrenergic Nerve Stimulation. M. J. Antonaccio and C. B. Smith 97

Cardiac and Peripheral Effects of Dopamine Infusion in Endotoxin Shock in the Dog. Linda L. Shanbour and Lerner B. Hinshaw 108

On the Measurement of the Affinity of Partial Agonists for Receptors. D. R. Waud .. 117

Effects of Potassium, Acetylcholine, Carbachol and Histamine on Na^{22} Movements in Ileal Smooth Muscle. George B. Weiss 123

The Relation of Changes in Sodium Transport to Protein-Bound Disulfide and Sulfhydryl Groups in the Toad Bladder Epithelium. A. Farah, N. D. Yamodis and N. Pessah 132

Drug Metabolism in Hypothermia. Uptake, Metabolism and Biliary Excretion of Pentobarbital-2-C^{14} by the Isolated, Perfused Rat Liver in Hypothermia and Euthermia. Sarah C. Kalser, Margaret P. Kelly, Eleanore B. Forbes and Mary M. Randolph 145

The Effect of Hexafluorenium on the Neuromuscular Refractory Period of Anesthetized Man. Ralph A. Epstein and Stephen H. Jackson 153

Differential Effects of Cholinergic Agonists on Self-Stimulation and Escape Behavior. Marianne E. Olds and Edward F. Domino 157

Factors Influencing the Incidence of Reversible Lens Opacities in Solitary and Aggregated Mice. Marta Weinstock and A. S. Marshall 168

Studies on the Relative Insensitivity of the Immature Rat to the Neurotoxic Effects of 1,1,1-Trichloro-2,2-Bis(*p*-Chlorophenyl)Ethane (DDT). Gary L. Henderson and Dorothy E. Woolley 173

No. 2, DECEMBER 1969

Some Effects of Pentobarbital and Strychnine on Transmission through the Ventrobasal Complex of the Cat Thalamus. ELEANOR E. HURLBRINK AND EUGENE S. BOYD 181
Comparative Effects of Reserpine on the Sleep Cycle of Man and Cat. JOEL S. HOFFMAN AND EDWARD F. DOMINO 190
A Brain Perfusion Technique Adapted for the Study of Drugs Which May Affect the Peripheral Circulation through a Central Action. JAMES B. BARRETT, ALPHONSE J. INGENITO AND LEONARD PROCITA 199
Centrally Mediated Peripheral Hypotensive Effects of Reserpine and Hydralazine When Perfused through the Isolated *in Situ* Cat Brain. ALPHONSE J. INGENITO, JAMES P. BARRETT AND LEONARD PROCITA 210
Catecholamine Uptake by Synaptosomes in Homogenates of Rat Brain: Stereospecificity in Different Areas. JOSEPH T. COYLE AND SOLOMON H. SNYDER 221
In Vivo Measurement of 5-Hydroxytryptamine Turnover Rate in the Rat Brain from the Conversion of C^{14}-Tryptophan to C^{14}-5-Hydroxytryptamine. ROBERT C. LIN, E. COSTA, N. H. NEFF, C. T. WANG AND S. H. NGAI 232
The Mode of Sodium Dependency of the Adrenergic Neuron Amine Carrier. Evidence for a Second, Sodium-Dependent, Optically Specific and Reserpine-Sensitive System. M. F. SUGRUE AND P. A. SHORE 239
Effect of False Transmitters on Norepinephrine Synthesis. IRWIN J. KOPIN, VIRGINIA K. WEISE AND GÖRAN C. SEDVALL 246
An Enzymatic Assay for Octopamine and Other β-Hydroxylated Phenylethylamines. PERRY B. MOLINOFF, LEWIS LANDSBERG AND JULIUS AXELROD 253
Combinations of *Alpha* and *Beta* Adrenergic Blockers in Isolated Guinea-Pig Atria. R. D. KRELL AND P. N. PATIL 262
Separation of the Effects of *Alpha* and *Beta* Adrenergic Receptor Stimulation on Taenia Coli. N. W. WEISBRODT, C. C. HUG, JR. AND P. BASS 272
Effect of Propranolol on Epinephrine-Induced Changes in Cardiac Rhythm and Arterial Potassium in Dogs Anesthetized with Cyclopropane. H. P. GUTGESELL, J. V. TEMTE AND Q. R. MURPHY 281
Mechanism of Vascular Resistance Changes Produced in Skin and Muscle by Halothane. JOHN M. AKESTER AND MICHAEL J. BRODY 287
Depression by Reflexes of the Pressor and Cardiotoxic Responses to Ouabain. RICHARD A. GILLIS, JOHN A. QUEST AND FRANK G. STANDAERT 294
Some Drug Effects on Calcium Movements in Aortic Strips. PATRICIA M. HUDGINS .. 303
The Effect of Ouabain on Calcium in Subcellular Fractions of Cardiac Muscle. DENISE CHIPPERFIELD AND WINIFRED G. NAYLER 311
Factors That Regulate Ouabain-H^3 Accumulation by the Isolated Guinea-Pig Heart. S. DUTTA AND B. H. MARKS 318
Simultaneous Assay of Angiotensin I and II and Determination of Converting Enzyme Activity. JACK D. BARRETT AND MOHINDER P. SAMBHI 326
Angiotensin Blocking Actions of Guancydine. J. R. CUMMINGS, A. N. WELTER, J. L. GRACE, JR. AND W. D. GRAY 334
Disulfiram Impairment of Drug Metabolism by Rat Liver Microsomes. BITTEN STRIPP, FRANK E. GREENE AND JAMES R. GILLETTE 347
The Metabolism of *R*(+)- and *RS*-Pentobarbital. KEITH H. PALMER, MARY S. FOWLER, MONROE E. WALL, L. SUE RHODES, WILLIAM J. WADDELL AND BILLY BAGGETT 355
The Ocular Effects of Repeated Dermal Applications of Dimethyl Sulfoxide to Dogs and Monkeys. EMIL R. SMITH, MARCUS M. MASON AND EUGENE EPSTEIN 364
The Effects of N-γ-Phenylpropyl-N-Benzyloxy Acetamide (W-1372) on Experimental Atherosclerosis and Hypercholesteremia. F. M. BERGER, J. F. DOUGLAS, B. J. LUDWIG AND S. MARGOLIN 371
Index, Volume 170, November–December 1969 383
